SOUND BOXES

RELAXATION OUT OF THE BOX

SMALL BOXES, BIG IMPACT

Natural sounds have a positive impact on our health and well-being. Scientific studies confirm a variety of positive effects. Our boxes make these benefits accessible.

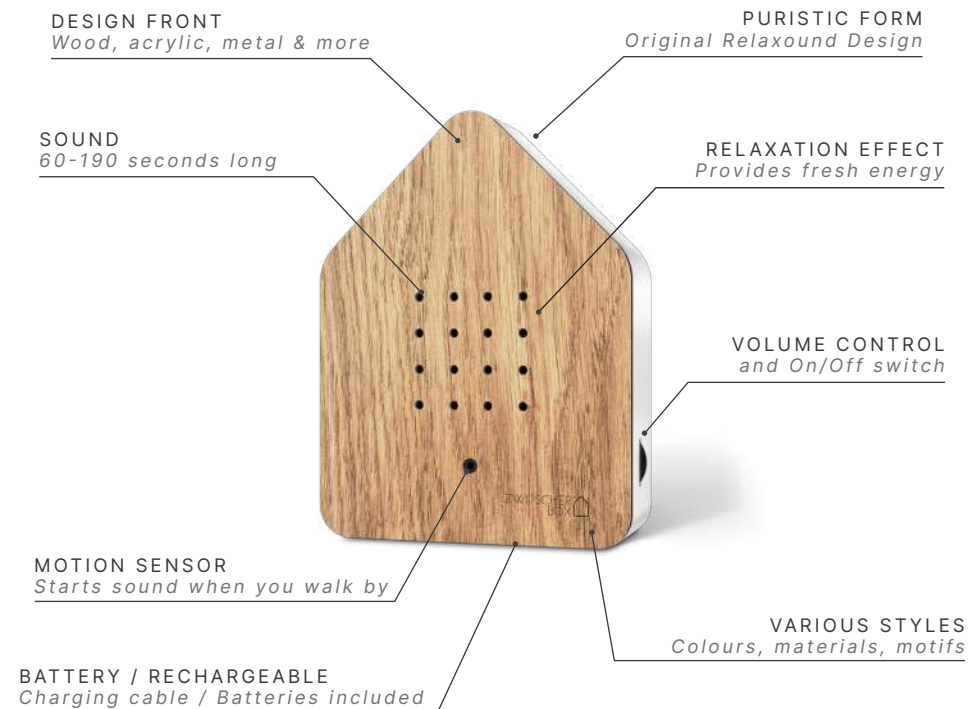

Original Relaxound sound boxes sound so clear, it's like being in nature. They are ideal for creating an atmosphere with sounds and offer combinations for every taste and ambiance. Their high-quality audio ensures an immersive experience.

Activated by a motion sensor, the natural sound starts just by walking by and fades away after a certain time. This way, Relaxound boxes bring a smile to your face.

Each box has its own character. Its minimalist design adds a touch of elegance to any setting, whether it's the bathroom, hallway, living room, or other rooms. Every box is an acoustic and visual highlight.

THESE FEATURES SPEAK FOR THEMSELVES

This is how easy the Original Relaxound sound boxes work:
