# Quality meets design

At Andersen Furniture, we believe that furniture and interiors are about more than just functionality.

We are a design company that works with architects and designers to challenge form, function and material, creating furniture that lasts for generations. Our approach to design is based on curiosity, innovation and talent for everyone's benefit.

With respect and care for the environment, we combine our passion for aesthetics with craftsmanship to create furniture and interiors for professional spaces and unique homes.

With colour, form, and materials, we create designs that resonate with both functionality and visual appeal.

**Andersen Furniture designs professional furniture** or various professional spaces that reflects the scandinavian history of craftsmanship while challenging and approving the contemporating forms today.

**We are dedicated** to create high-quality furniture and interior solutions tailored to professional environments. Prioritizing design, functionality, and long-lasting quality, we create products that meet the practical and aesthetic needs of demanding spaces.

**From stylish restaurants and inviting hotels to contemporary educational facilities and inspiring office or meeting space,** we delivers customized solutions that enhance both atmosphere and usability. Each project is approached with a deep understanding of the specific needs of the environment, ensuring that functionality, comfort, and aesthetic expression work seamlessly together.

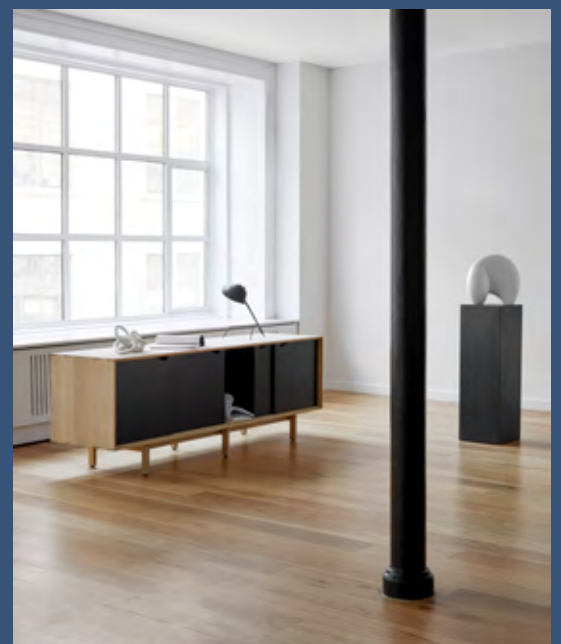

**We trust** that our approach to Scandinavian design and modern workspaces will inspire you to consider your environment and its surroundings in new ways. As you explore this catalog, we hope the images and designs will inspire you and motivate you to create spaces that resonate with your vision.

## AC2

## chair

AC2 chair in beech grey and seat in veneer, colour grey, design: byKATO. T11 meeting table, 295x110x72,5 cm with tabletop in Fenix laminate, colour black, base in oak whitepigment, matt lacquer, design: byKATO

Offered with a sleek veneer seat in a curated palette of colors or upholstered in high-quality leather, the chair brings visual versatility and tactile richness to any interior setting.

AC2 series, design: byKATO

**The AC2 series**, designed by byKATO, is a range of timeless and functional chairs that blend classic Scandinavian design with modern versatility. Characterized by minimalist lines, elegant detailing, and soft contours, the series reflects a light and natural aesthetic that complements a wide range of environments and homes..

**The AC2 chair offers a refined and comfortable seating** solution, perfectly suited for restaurants, hotels, meeting and conference rooms – as well as private dining spaces. Its simple seat and clean silhouette give it a subtle yet distinctive presence, balancing form and function with ease.

Andersen Classic table 255L, 172x100xH72 cm in oak whiteoil, C-edge, design: Andersen Design Team. AC2 chair with upholstery y cognac leather, base in beech whitepigm. matt lacquer, design: byKATO

Its well-considered design and durable materials make the AC<sub>2</sub> collection an excellent choice for both modern homes and professional environments.

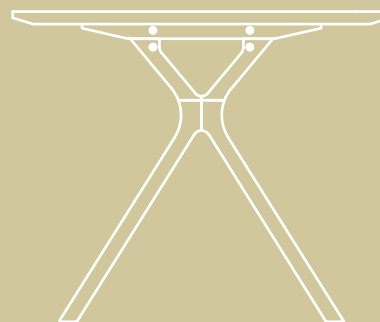

T1 meeting table, 800x160xH72,5 cm with tabletop in linoleum, colour black, base in oak whitepig. matt lacquer, design: byKATO. AC2 chair with upholstery black PU leather, base in oak whitepig. matt lacquer, design: byKATO.

# Design focus Space table

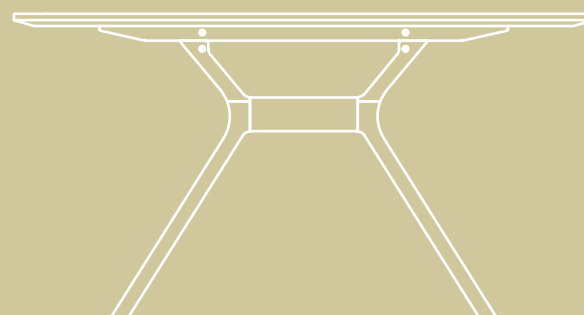

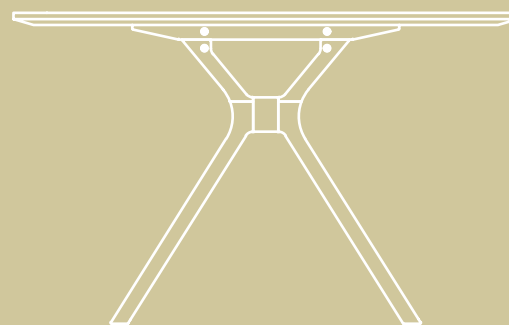

Where Function Meets  
Scandinavian Simplicity

Space meeting table, 360x120xH74 cm with tabletop in linoleum, colour black, base in oak whitepig. matt lacquer, design: Andersen Design Team. AC2 chairs in beech black matt lacquer and seat in veneer, design: byKATO

Space meeting table round, Ø140xH74 cm with tabletop in linoleum, colour Mauve, base in oak whitepig. matt lacquer, design: Andersen Design Team. Scope chair with upholstery Hallingdal 0227 from Kvadrat, base in black, stethoscope in zinc, design: Hans-Thyge & Co

**With its clean lines and refined details,** the Space table series brings timeless Scandinavian aesthetics into modern professional and social settings.

**The series balances elegance with practicality,** offering a versatile selection of tables in various sizes, heights, and shapes – including round options that soften and elevate any room. The Space table can be configured to suit a wide range of expressions and environments. From warm, organic tones to bold contrasts, the collection invites personalization without compromising coherence or quality.

Whether used in **meeting rooms, collaborative workspaces, cafés, or private homes,** Space offers a functional foundation for everyday life. Its thoughtful construction ensures impressive stability, even at longer lengths, while requiring only a few bases for support. Optional power solutions and cable covers can be seamlessly integrated, making Space as practical as it is visually appealing.

**With its timeless design, solid craftsmanship, and adaptability,** the Space table series offers more than just surfaces – it creates settings where collaboration, connection, and creativity can unfold naturally.

A Modern Take on the  
Classic Amager Shelf

# Design focus A-shelf

A-Shelf large in steel, design: Andersen Design Team.

A-shelf large and medium oak oil, design: Andersen Design Team. LC1 lounge with upholstery in black leather, base in oak whitepig. matt lacquer, design: Andersen Design Team.

A-Shelf large in black steel, design: Andersen Design Team.

**The A-Shelf series offers a contemporary reinterpretation of the iconic Danish Amager shelf** – a timeless piece reimagined for modern living. Rooted in tradition, the A-Shelf brings a fresh perspective to interior design, combining heritage with a clean, architectural expression.

**Designed to bring a personal touch to any setting**, the series offers a stylish way to display everyday objects, treasured items, or curated collections, adding warmth and personality to the space.

**Versatile in its design**, it can be mounted on the wall in various directions, sparking creativity and innovation in your interior. Combine several shelves to form dynamic and sculptural wall arrangements that reflect individual style – blending storage and decoration in one intuitive solution.

**Available in a range of sizes and materials** – from warm, natural wood to urban, industrial steel, the A-Shelf adapts effortlessly to different spaces and expressions. The A-Shelf has become a favorite for its carefully considered, minimalist design that effortlessly stands out with its unique character. A piece that balances function and form and elevates everyday storage into an element of design.

# Our approach to the environment

**We are aware of the impact of our actions,** and we take the environment seriously. We strive to ensure sustainability in every process of our production. We strive for a greener world while ensuring the best possible conditions for both employees and the environment. Our focus is to find a healthy balance between a good working environment, social responsibility and environmentally friendly production. Our products are designed to last for generations. The design and quality of our products ensure they have a long life.

### EU-ECOLABEL

The Mood Conference, Mood 4-legs, and Mood Learn chairs from Andersen Furniture are certified with the EU Ecolabel, which makes the chairs more gentle on the environment. The chair shell is made of 100% upcycled polypropylene plastic sourced from industrial waste. The strict requirements ensure a sustainable product with minimal environmental impact. A total of 18 chair models in the Mood collection are certified with the EU Ecolabel.

### FSC

We are a FSC®-certified company. Our first FSC®-certified collection is the Scope collection, Scope, which consists of six chair models, all of which are FSC-certified. In addition, a large range of furniture and design interior from Andersen Furniture is FSC-certified and produced with consideration for the environment. We work purposefully and ambitiously towards more FSC-certified products.

### RECYCLED PLASTIC

The effort to sort waste is certainly not wasted. It has made it possible for us to produce the popular Mood chair and the felt chair Tono in a more sustainable version. For the Mood chair, the black plastic shell is made from recycled industrial plastic. When you buy a Tono chair, you get a chair with excellent seating comfort, great acoustics and a sustainable felt made partly of 250 recycled plastic bottles.

Create me candleholder, 7,5 cm black, design: Andersen Design Team.

# Living

A home reflects personal style, where design and functionality come together. Through carefully chosen pieces and thoughtful details, even the smallest elements can transform a space, adding character and warmth. Functional accessories, unique furniture, and subtle accents not only enhance the aesthetic but also create an environment that feels uniquely yours.
