# A-ORGANIZER SHELF

DESIGN: CHARLOTTE HØNCKE

A-Organizer Shelf is a series of practical and versatile shelves that make organizing and sorting easy and exciting. The shelf will fit in every room at home wherever storage is needed.

A-Organizer Shelf is designed by Charlotte Høncke and is a modern and contemporary interpretation of the classic Copenhagen shelf, which characterized many homes years ago, where space was tight. The A-Organizer shelf is designed in a Scandinavian style with a clean, simple and classic look.

The shelf holds four large glass jugs that function as drawers with plenty of space for storage and are suitable for sorting in all rooms. It can be in the kitchen for storing dry goods or spices, or in the office for storing buttons and sewing thread.

The shelf is available in two versions, and the shelf is attached to the wall with a suspension list so that the screw is invisible when hanging on the wall.  
An elegant brass logo is mounted on the right side of the shelf.

Max. Weight: 7,5 kg

The jugs measure: 1350 ml/125 ml

# A-SHELF

A-Shelf is a modern reinterpretation of the well-known Danish Amager shelf.  
The A-Shelf provides the opportunity to display family memories, giving the interior a personal detail.

A-Shelf can also be mounted on the wall in different directions, which creates innovation and creativity in the interior design. By combining several A-Shelves, a personal and unique wall is created with space for storage and decoration.

The shelf is made of solid ash, which is subsequently treated with a colored oil.  
The beautiful dark color gives the room a warm, modern and contrasting look. Through the smoked surface, you can feel the natural veins in the wood, which gives a beautiful play on the shelf.

A-Shelf is also made with keyhole fittings on the back so that it hangs stably, and the screw cannot be seen.
