Come together

We are fascinated by all those moments that truly enrich our lives. The spontaneous pasta dinner with your friends, a family gathering around the table where bedtimes are skipped and laughs run freely, the late-night snack in the kitchen coming home from a party.

We want our tableware to reflect the life you live - with room for a playful take on established rules, personal quirks and of course lots of people sharing the moment. Never satisfied with the ordinary choices, we pride ourselves in having a multitude of generous plates, cosy cups, cheerful wine glasses and festive champagne flutes, making your table setting look personal and effortless.

Your Table

We have no interest in forcing a trend or dictating a look - rather we encourage you to look at our beautiful range of easy living essentials as a family jigsaw puzzle, where you decide which items needs a place on your table. personal and effortless.

Easy living

What constitutes the perfect moment? It can be hard to pinpoint why the coffee tastes just right, why the music makes your hips sway or why the eyes of your sweetheart just have that perfect sparkle just now. But with the right amount of mood-boosting accessories, you can set the scene for those everyday epiphanies that makes everything worthwhile.

Filled with love

We are in a constant pursuit of finding new ways to make your house even more homely. Whether you are looking for an area of lovely candleholders, a vibrant vase or just an assortment of colourful candles, we've made the Nordic easy living looks even easier for you to recreate.

Tableware

Nordic Bistro

Stackable cups and plates made from sturdy ceramics in a deep, sandy beige is the latest addition to Nordic Bistro - our design collaboration with interior designer, Aurelién Barbry. The industrial feel is smoothed over by the soft edges and perfectly shaped handles making the collection easy to style in both minimalist and colourful settings. The initial inspiration for the Nordic Bistro collection was the vibrant food scene of downtown Copenhagen - but the versatility of the items makes them perfect for casual dinner parties as well as restaurant meals.

NORDIC BISTRO TABLEWARE / AURELIÉN BARBRY

“Collaborating with Aurelién Barbry is always energizing and uncomplicated. Being an acknowledged industrial and interior designer, he brings an intuitive flow to the design process. We loved the Nordic Bistro tableware that adds a robust charm to any dinner table.”

Broste Copenhagen

“My design philosophy is to move objects towards a more simplistic expression. I want to shape items that are evident necessities with a touch of no-nonsense functionality. Nordic Bistro was inspired by the buzzing bistro scene in Copenhagen; however, it is just as great a pick for adding a vibe of contemporary cool to your own table setting.

The decorous tableware is made from sturdy ceramics and can resist the wear and tear of a bustling cafe or a busy family. The collection is just as versatile as it is unique.”

Nordic - a dish for every mood

The Nordic tableware collections have a strong Scandinavian appeal, with gentle colour palettes and smooth, organic lines. The Nordic Vanilla series has a signature smooth surface that looks just as inviting as homemade vanilla ice cream, while Nordic Coal has a sumptuous and strong look inspired by nature's own, beautiful raw materials. Nordic Sea is inspired by the dramatic blues of the North Sea on a stormy day with the crashing waves, foamy whitecaps and the dark blue horizontal line, and Nordic Sand epitomizes the same organic designs in natural sandy nuances for a soft and versatile look.

All four lines consist of tea pots, milk jugs, mugs, and cups as well as bowls and plates in several sizes. Each item is finished by hand with a reactive glaze giving them all a personal expression. When kept apart, the individual lines make your table setting look modern and casually elegant; but you can easily mix up styles in contrasting colours creating an informal and contemporary mood.

Eli

The Eli collection is characterized by its smooth edges and soft colours giving it strong connotations to modern Japanese tableware. The collection has an aesthetic affinity to the elegant, Japanese design tradition. It consists of ten ceramic items: a cup with and without a handle, a small jug, a small and medium bowl, and three different rectangular plates. The collection comes in five different colours adding a playful Nordic twist to the look, when you mix them up. The soft blue shade has a glossy glaze - reflecting light and adding vivid accents to the surfaces. The shades come with a matte finish and a subtle texture reminiscent of natural stone. The glaze has a reactive quality when burnt in the ceramic's oven, which ensures no two items are just the same.

Limfjord

Limfjord is inspired by the namesake Danish inlet, its beautifully curvy coastline and underwater limestone landscape. The tableware series is designed with the organic shapes of the seabed in mind. The soft tones of the plates, platters and mugs are chosen to resemble the nuances of mussels and oysters, and each delicate, organic piece is finished with a reactive glaze that gives the ceramics a soft finish like watercolours. The series consists of mugs in three different shades across two sizes and four sizes of plates; they all fit like a charm with our other collections, or they can take center stage in a charmingly, rustic table setting.

Grød

GRØD x Broste Copenhagen is a collaboration between Broste and Denmark's leading porridge eatery. The collection consists of fifteen unique designs that fit the Danish concept of hygge, home-cooked meals and informal eating in a vibrant atmosphere. The collaboration explores the Nordic traditions of serving warm meals year-round in an understated and inviting way.

Broste Copenhagen's knowledge of timeless design inspired by the Nordic sensibility combined with GRØD's passion for developing modern, culinary porridge was the perfect foundation for collaboration based on a mutual dream of fusing the love of satisfying food with enduring design.

Sandvig

Our Sandvig collection is inspired by the beautiful costal walks in Sandvig - a small town on the Danish island Bornholm. The organic shapes and delicate structure mimic seashells and small treasures of the ocean hidden in the sand. Every item is handmade and completely unique with a variable finish in the texture of the glazed porcelain.

Esrum

Esrum is our minimalist tableware collection inspired by the small Danish town, Esrum, dating back to the Middle Ages and is known for its beautiful monastery and the second largest lake in Denmark. The design and colour scheme are inspired by the dark waters of the lake and the sombre, romantic feel of the area. All items in the collection come in two different textures: a crisp white and dark ivory glaze, and they vary in colour and texture due to the ceramic burning process.

Shape

The Shape serving series is as beautiful as it is versatile, with individual silhouettes made of porcelain and glazed by hand, creating a lovely organic feel. Each piece is unique, and the variety within Shape makes the serving series ideal for adding colour and organic look to the dining table. Available in refined colours like soft grey, camel and dark chocolate brown, all in a mix of matt and shiny glazes, giving each piece a vitrified stone-like surface with a tactile feel, creating a coherent identity.
