A feast for your eyes - a comfort for your soul

At the heart of the Nordic spirit is the meal, the dinner invitation, and the many evenings where we gather around the table for a home cooked feast. This is why the table setting, the candles, the vases and even the tablecloth are all items of great importance to us. First you delight the eye, then the palate, and finally the soul is satiated.

At Broste Copenhagen we place great emphasis on creating an atmosphere of relaxed coziness while maintaining a keen attention to the details that make all the difference. This season we are thrilled to introduce new bespoke tableware, charming vases, calming textiles, and artistic prints that turns your home into an even more personable and charming place for you to host your relatives, entertain close friends or just enjoy your own company.

Broste Copenhagen - Home is where the B is.

When setting the table envision the conversations you want to have, the food you want to eat and the memories you want to create.

What a difference the small details make - like lighting a few candles in the darkest corner of the room, or creating a cozy atmosphere with odd-sized candlesticks mixed and matched on the dinner table.

Like strokes on a canvas, textiles paint a picture of your home. With each rug, throw, and pillow adding a layer of texture and color that transforms each room into your personal sanctuary.

In need of new inspiration? Picture a rustic wooden table, set with mismatched vintage flutes and freshly picked wildflowers, evoking a sense of timeless charm and heartfelt hospitality... and then create the same mood with what you've got!

Make the living room the liveliest room of your home with lots of candles and plenty of comfy pillows.

The best interiors are the ones that feel lived in. Focus on soft hues, tactile objects and organic shape, and your eye will feel relaxed whenever you come home.

Easy living is all about simplifying routines and decluttering spaces. Invest only in items that makes your house feel like home and dedicate time and energy to the projects and the people you love.

A table adorned with flickering candles, delicately folded napkins, sleek silverware and ceramic plates, invites you to savor every moment of your meal.

Feel Good

We are all trying to do the right thing. Buy consciously and act responsibly. Sometimes it is easy to be confused as a consumer when deciding on how you choose wisely, when there are so many options out there. At Broste Copenhagen we want to ease your mind, assist your purchasing process, and make you Feel Good about the items that will inhabit your home. This is why we have made a guiding label for all the items that we are especially proud of from a responsibility stand point. Maybe they are a result of upcycling, recycling, or ecological farming. Maybe they require less transportation or are easy to repurpose. Maybe they are recyclable, or maybe they are just made from better materials than your average options. Regardless the story behind the product rest assured: When choosing a “Feel Good” item, you are making the better choice for your home, your family and for your own peace of mind.

Feel Good

Tableware

Nordic Marsh Tableware

The new tableware collection, Nordic Marsh, is inspired by the rough local nature and the minimalist aesthetic of the Nordic countries. The subtle hue has an intricate color play that changes from green to grey depending on the light. Nordic Marsh has a sumptuous, organic look, and each item is finished by hand with a reactive glaze giving them all a personal expression.

Nordic Sand Tableware

Nordic Sand is inspired by the impressive dunes and beaches in the Northern part of Denmark. The design has an organic look and feel with its sand-colored glaze and dark rims reminiscent of sandy beaches, seashells, pebbles, and seaweed. The ceramic glaze is reactive giving each item its own distinctive look. Nordic Sand is the perfect line of tableware for the minimalist home, but it can also serve as part of a nonchalant mix of vintage finds, retro serving plates and old, crystal glasses.

Nordic Vanilla Tableware

The elegant look of Nordic Vanilla resembles the look of a soft serve vanilla cone – the delicious, rich cream speckled with vanilla beans. The appetizing and effortless look of the collection is perfectly aligned with the Broste Copenhagen aesthetic; because why overcomplicate a design when very often the simplest look is also the most refined? Nordic Vanilla is the perfect choice for a paired down weekday gathering, but with the right selection of flowers, candles, and elegant napkins it can work just as well for an elegant three-course meal.

Nordic Sea Tableware

Nordic Sea is one of our most renowned collections – and we can certainly understand why. Inspired by the color scheme of the North Sea on a typical summer day where the color palette ranges from dark skies, white clouds, promising shades of blue intermingling with the nuances of the crashing waves and foamy whitecaps. The design is unpretentious and versatile – a contemporary classic that's equally suitable for homecooked meals and haute cuisine.

Stevns Tableware

Stevns tableware series is designed by Danish ceramic designer Julie Bonde, who has embodied timeless beauty and functionality to evoke attachment and appreciation. It kindly mirrors the geological formations of the UNESCO-protected natural area Stevns Klint in Denmark, with each piece featuring clean lines and understated textures by translating the layers into reliefs.

The Stevns tableware series is crafted from white stoneware, providing a modest and timeless aesthetic. Every piece is glazed with a "Chalk White" glossy glaze, which creates a subtle colour variation and enhances the ceramic's inherent beauty. It accentuates the relief decorations, resulting in a visually captivating and unique final product.

Taverna Tableware

Taverna consists of nine pieces in dusty green with a quaint nonglazed rim. The pieces are made in hand-finished and glazed stoneware in Portugal, inspired by the informal Mediterranean approach to dining.

All elements are adorned with a curved edge that enhances the presentation of the food, and the items look equally good as serving dishes as plates. The ample bowls are perfect for tossing a salad, serving spaghetti vongole or for mixing up sourdough. The collection embodies all the Broste core values, where form and function unite in an effortless, homely, and timeless fashion.

Salt Tableware

Embrace your inner minimalist with our elegant Salt collection. With a focus on classic shapes, this collection is characterized by its white glaze and hand-painted black brims. The unique look of each piece is achieved with a special glaze that develops a distinctive texture and colour when burnt in the ceramic furnace. With its clean look, the collection can be mixed to achieve an effortlessly chic table design.

GRØD Tableware

GRØD x Broste Copenhagen is a collaboration between Broste Copenhagen and Denmark's leading porridge eatery. The collection consists of thirteen unique designs that fit the Danish concept of "hygge", home-cooked meals and informal eating in a vibrant atmosphere. The collaboration explores the Nordic traditions of serving warm meals year-round in an understated and inviting way.

Broste Copenhagen's knowledge of timeless design inspired by the Nordic sensibility combined with GRØD's passion for developing modern, culinary porridge was the perfect foundation for collaboration based on a mutual dream of fusing the love of satisfying food with enduring design.

Nordic Bistro Tableware

Stackable cups and plates made from sturdy ceramics in a deep, sandy beige is the latest addition to Nordic Bistro - our design collaboration with interior designer, Aurelién Barbry. The industrial feel is smoothed over by the soft edges and perfectly shaped handles making the collection easy to style in both minimalist and colourful settings. The initial inspiration for the Nordic Bistro collection was the vibrant food scene of downtown Copenhagen - but the versatility of the items makes them perfect for casual dinner parties as well as restaurant meals.

Limfjord Tableware

Limfjord is inspired by the namesake Danish inlet, its beautifully curvy coastline and underwater limestone landscape. The tableware series is designed with the organic shapes of the seabed in mind, where the soft tones of ceramic items are chosen to resemble the nuances of mussels and oysters. Each delicate, organic piece is finished with a reactive glaze that gives a soft finish like watercolours. The series fit like a charm with our other collections, or it can take center stage in a charmingly, rustic table setting.

Pesce Tableware

Pesce makes you sense the sea breeze, the sweet scent of jasmine, and the pleasant temperatures that make us want to stay up for longer and gather around the table for a delightful meal. The Pesce lemon bowls and fish-shaped serving dishes spread a Mediterranean vibe and bring back precious memories of the holiday.

Shape Tableware

The Shape serving series is as beautiful as it is versatile, with individual silhouettes made of porcelain and glazed by hand, creating a lovely organic feel. Each piece is unique, and the variety within Shape makes the serving series ideal for adding colour and organic look to the dining table. Available in refined colours like soft grey, camel and pumpkin orange, all in a mix of matt and shiny glazes, giving each piece a vitrified stone-like surface with a tactile feel, creating a coherent identity.

Tableware sets

There is more that unite us than sets us apart. Especially when it comes to gathering people around the dinner table for a beautiful meal, a light lunch or afternoon tea. Over the years we have composed various collections of contemporary classics. The lines epitomize Nordic simplicity when featured alone but they can easily be mixed for a modern, casual and cosy look.

Our tableware not only brings people together around the dinner table but also symbolises the essence of new beginnings. Sometimes in life, we find ourselves embarking on new journeys, moving away from home, and even separating from familiar surroundings, or simply desiring something new. There are countless reasons to start collecting new tableware, and we have made that initial step effortless with our curated tableware sets.

18/8 cutlery steel: Indulge in quality that will never go out of style.

We primarily use forged stainless steel 18/8 for our cutlery because it offers superior durability and resistance to corrosion due to its 18% chromium and 8% nickel composition. Our cutlery is forged chiefly for increased strength and longevity while providing a comfortable and balanced feel during use.

Cutlery

NORDIC BISTRO AURELIÉN BARBRY

The Nordic Bistro cutlery is designed to be functional yet beautifully aesthetic, adding that simple and timeless touch to a table setting. The series consists of the traditional forks, knives, and spoons in matt steel, perfectly balanced, neither too heavy nor light. The Nordic Bistro series is designed according to its function and related by gentle, harmonious forms that reflect Aurelién Barbry's design philosophy.

"My design philosophy is to move objects towards a more simplistic expression. I want to shape items that are evident necessities with a touch of no-nonsense functionality."

Aurelién Barbry

Hune

The beautiful nature and brisk, salty air of the small city of Hune on the Northwest coast of Denmark inspire the Hune collection. The design is rustic and understated, with rounded edges and a smooth, firm grip. The Hune cutlery is available in four distinctive variants, making them a versatile and obvious choice for any occasion.

The Hune Hammered collection is a striking extension of the original line. Each piece has been adorned with a hammered pattern, giving it an artisanal look and a remarkable feel. The collection will add a subtle vibe to a minimalist table setting or function as an element of surprise to an already lavish spread.

Tvis

The Tvis cutlery has an eye-catching appeal with solid, sleek lines and a bold colour scheme. The design is informed by the aesthetic rigour of Scandinavian minimalism, while its bright gold and pitch-black options make each item a statement piece at the table.

Sletten

Sletten is the epitome of pared-back elegance and superior Nordic design. The slender, steel body with its smooth edges softens the general impression of the collection, making it suitable for a feminine, flowery table arrangement or a more casual and haphazard setting.

OEKO-TEX STANDARD 100

Founded in 1992 Oeko-Tex is an organization where seventeen independent research and test institutes in Europe and Japan work together to develop testing methods and define limit values for the textile and leather industry. At Broste Copenhagen we are proud of our certifications as they ensure transparency and guidance for our customers. Products featuring the Oeko-Tex Standard 100 label are thoroughly tested from yarn to finished product, and they are guaranteed to be free from all harmful substances, including toxins and irritants.

Chopping boards with a track record

At Broste Copenhagen we aim to do better and improve on our environmental impact every day. This is why all our wooden chop boards are FSC® certified. In an FSC® forest, there are only felled as many trees as the forest can manage to reproduce naturally. FSC® is the highest environmental standard for responsible forest consumption, and this is why we favor FSC®-labelled wood.

Linen

Often the simplest solutions are also the most sustainable. We want to make the most climate conscious choice without compromising on look and feel, and in the case of our linen products we manage to do just that. Linen is one of the most sustainable textiles available. It is waste free as the entire flax plant can be woven into fiber, and when processed organically withholding toxic dyes and chemicals, you avoid water contamination. In addition, linen is naturally biodegradable, extremely durable, and can be washed at very low temperatures.

From plastic to cushions

At Broste Copenhagen we are expanding our sustainable ranges to include products made from recycled post-consumer plastic, such as plastic bottles and the like. When turned into PET-textiles the result is outstanding: Soft and versatile fabric with a wool like feel, yet with the practical qualities of plastic materials. These textiles are easy to clean with the mere wipe of a cloth, and because the PET-textiles do not absorb liquids, they will not stain easily either.

OEKO-TEX STANDARD 100

Founded in 1992 Oeko-Tex is an organization where seventeen independent research and test institutes in Europe and Japan work together to develop testing methods and define limit values for the textile and leather industry. At Broste Copenhagen we are proud of our certifications as they ensure transparency and guidance for our customers. Products featuring the Oeko-Tex Standard 100 label are thoroughly tested from yarn to finished product, and they are guaranteed to be free from all harmful substances, including toxins and irritants.

SECESSION

**Cotton Paper
is more than
a canvas.**

Stationery

Cotton Paper

Nothing feels better than turning trash into treasures and one of these small treasures is the cotton paper used for several of our bestselling designs. At Broste Copenhagen we are always looking for new ways to reuse redundant materials or recycle waste - and in the case of the cotton paper we succeed in a truly remarkable way. Cotton paper is created out of fiber waste from the textile industry, and the paper is soft to the touch, acid-free, durable, and versatile.

Furniture

WIND COLLECTION

Wind / Velvet

The Wind collection offers interesting furniture pieces that master the delicate balance between straightforward Nordic minimalism and a soft, intimate expression.

The collection is upholstered with our classical thick velvet, making them as exquisite to look at as they are to touch.

The Wind collection comes with dark stained oak, natural oiled oak and black beech legs.

MATERIALS & CONSTRUCTION

Textile name: Velvet
Composition: 100% Polyester
Martindale: 45.000
Pilling: 4
Frame: Chipboard frame and solid wood
Foam: CME FR foam
Legs: Oak / Beech
Design: Broste Copenhagen
Manufactured: Europe
Certifications:
 EN-16139
 EN1021-1
 EN1021-2

Care: Vacuum regularly or brush with a soft clothes brush - always in the direction of the nap. Dry clean only.

To see the specifications of each fabric please go to overview on page 418.

LAGOON COLLECTION

Lagoon 3-Seater / Siena

The Lagoon 3-seater is a cosy and generous sofa floating on the floor with an inviting look - just like its modular family.

Wide upholstered armrests and backrests surround the spacious seat, ideally filled with cushions and throws in seasonal colours and patterns.

The high-density foam assures extra softness and invites you to cuddle up with your beloved ones.

MATERIALS & CONSTRUCTION

Textile name: Siena
Composition: 54% Polyester/
 36% Viscose/ 10% Linen
Martindale: 90.000
Pilling: 3-4

SIZES

Lagoon Modules / Siena

The Lagoon modules have a contemporary silhouette in calm and natural colours.

The low frame has a distinct lounge feel; however, the combination of a high back and short seating depth invites you to stay put for long conversations, a comfortable read or an impromptu snooze.

High-density foam gives extra softness and optimal seating comfort, while the solid frame ensures that the Lagoon modules last for years.

MATERIALS & CONSTRUCTION

POND COLLECTION

Pond Chair and Pouf

The Pond series embodies captivating proportions, creating an intimate and welcoming atmosphere. The chairs distinctive aesthetic envelops in warmth and style, with a fully upholstered design featuring clean lines, offering an equally delightful view from both the front and back. Complementing the chair are the Pond poufs, inspired by the charm of French Macaroons. These versatile pieces serve as footstools, extra seating, or even small tables when paired with a tray, adding a playful touch to the chair or any decor.

The Pond chair and poufs redefine furniture with its embrace of graceful curves and uncluttered lines, infusing organic charm and timeless vibrancy into living spaces, be it within apartments, hotels, or workplaces. Immerse yourself in the Pond collection and embrace its Nordic heritage and design ethos.

BERIT COLLECTION

Berit Dining Table

The Berit Dining Table is a neat graphic masterpiece, available in two esteemed shades: Grey and black. The ash veneer tabletop gracefully rests upon the powder-coated steel legs, ingeniously crafted from two curved elements converging into a Y-shaped structure. This fusion of elegance and robustness is both seamless and unique, offering both style and functionality.

With ample room for up to 8 individuals, the table becomes a focal point for cherished gatherings. Its versatile colours effortlessly complement diverse interior settings, embodying authentic and inviting charm. Create memorable moments and enjoy meals with loved ones around the Berit Dining Table, where style and functionality converge.

NOBUKO DESIGN BY METTE DEGN

“Mette Degn understands how to apply her architectural background to functional, interior design. She has an admirable way of making strict minimalistic choices look easy and appealing. Mette Degn adds a contemporary sense of chic to home essentials - and it was a delight to collaborate with her.”

Broste Copenhagen

“I loved the challenge posed by the ambitious Broste team. I was invited to create a flatpack bookcase with no stabilizing cross at the back and multiple ways of repurposing the shelves. It is no easy feat, especially when the look also needs to be aesthetically pleasing. I am so happy with the final piece. It turned out beautifully, exceptionally flexible, and you can customize it to suit your exact personal needs.

Broste Copenhagen is known for functional designs that make it easy to organize your belongings and create meaning out of a pretty mess. I designed the organic-looking bookshelf and bookends with that endeavour in mind.

I was inspired by the solid yet bendy structure of bamboo, which is resilient under pressure and elegant in its simplicity.”

Mette Degn

Eco-friendly elegance with upcycled eggshells

Our Elaine and Tilde tabletops are crafted from a blend of high-quality resin and eggshells that are collected from an egg processing factory located nearby the production. By upcycling this waste material, we can reduce resin usage by up to 50%, contributing to the creation of a stunning and long-lasting tabletop.

Outdoor

Eden

In keeping with our Danish roots, the design is sleek and minimalistic with an airy, inviting quality. This makes Eden the perfect furniture option for any outdoor space you want to share with your family, friends or just a quiet moment in the company of your thoughts.

The collection is made with as much attention to detail as it is to functionality and comfort. All chairs are stackable, the tables are foldable, and each piece is made with minimal use of powder-coated steel. The straight lines of the design create a subtle shadow play, adding a decorative touch to the surface of your wooden terrace or the surrounding walls of your favourite corner.

EDEN GARDEN TABLE

Item: 32000076
Size: W70 x D70 x H74 cm
Sales Unit: 1 pcs

FIBER STOOL

Item: 14469001
Size: W37 x D37 cm, SH40 cm
Sales Unit: 1 pcs
Color: Charcoal
Material: Fiberclay
Info: Fiberclay is a natural material with colour variations. Suitable for outdoor use. Naturally retained salts will generate a patinated aging over time. Not frost proof.
Care: For a longer lifespan we recommend a stone sealer or wax treatment. Store it dry and frost-free during winter

1005510 4007635
 2056100 5005900
 3037030 6060700

FIBER TABLE

Item: 14469032
Size: Ø110 x H75 cm
Sales Unit: 1 pcs
Color: Charcoal
Material: Fiberclay
Info: Fiberclay is a natural material with colour variations. Suitable for outdoor use. Naturally retained salts will generate a patinated aging over time. Not frost proof.
Care: For a longer lifespan we recommend a stone sealer or wax treatment. Store it dry and frost-free during winter

ABOUT OUR PRODUCTS

Bamboo and Rattan

Rattan and bamboo are natural and beautiful imperfect materials with unique and inevitable colour variations, markings, grains, and dents that does not influence the product's durability, strength, or lifespan. The handmade nature of rattan and bamboo furniture, lamps, baskets etc. means that no two pieces or sides of the same piece are alike.

Please note that rattan or bamboo can become brittle or damaged when exposed to heat or moisture. Caring for the material will keep the material last for years. The item should be regularly dusted or vacuumed using an upholstery brush and low suction. When necessary, a more thorough cleaning can be done with a damp cloth. Any food, drink, or mud stains should be cleaned away immediately with mild soap. Please ensure not to soak the material.

We advise against leaving rattan or bamboo exposed to the elements when not in use. Store them in a dry and ventilated space during the winter months to prolong their lifespan.

Ceramics

All our dinnerware and decorative items made of stoneware, porcelain, clay or ceramics are finalised by hand. The craftsmanship gives every item minor, beautiful irregularities in the form, the tone and the glaze colour. The variations of the product remind us of the authenticity of the production of our tableware.

Porcelain and Stoneware

We use stoneware and porcelain clay in our dinnerware series and we love the contrasting expression of the denser and stone-like quality of the stoneware and refined porcelain. The main difference between the two types of clay is that stoneware is more dense and less porous than porcelain. Stoneware is fired at approximately 1100-1250 degrees and retains more water after firing than porcelain, which can cause it to become hot during use. Porcelain, with its light, almost translucent "shell-like" appearance, is fired at very high temperatures ranging from 1200-1450 degrees. When porcelain is fired, it develops a smooth and hard structure. Both materials are robust and long-lasting, each with its own unique appearance and tactile qualities.

Reactive glaze

Reactive glazing is our most cherished glaze because its variegated coloring lends each piece a subtle uniqueness. The final finish is unpredictable due to the non-formulaic firing process in the kiln. As a result, no two pieces of reactive glaze dinnerware are alike, each possessing its own distinctive traits and nuances.

The detailing of our glazed products is made by hand, making each piece unique.

We sometimes let the colour be defined by the raw material, which by nature will give tiny variations in the tones of the series. For our Nordic Bistro dinnerware, we have added a transparent, glossy glaze that adds a beautiful depth to the natural colour and reveals imperfections in the raw material that is usually not visible. Some of our tableware series

are created by pressing the material into molds with high pressure. In this process, minor dents may occur unavoidably and should not be considered production faults.

Dishwasher

All our tableware series are suitable for the dishwasher. However, temperature above 65 degrees Celsius can contribute to the crazing of the glaze and is therefore not recommended. We also recommend to unload the dishwasher when it has cooled down to avoid chipping.

Microwave

All our tableware is microwave safe. However, an effect above 675 Watt can overheat and damage the item and is not recommended.

Oven safe

Our ovenware is safe up to 250 degrees Celsius. Please refrain from subjecting it to sudden temperature fluctuations. Take caution, as ovenware items may break if exposed to rapid changes in temperature, such as transitioning from a hot oven to a cold countertop. Note that our tableware collections made of stoneware and porcelain are not suitable for oven use.

Freezer safe

Our ovenware is safe to use in temperatures as low as -18 degrees Celsius. Avoid abrupt temperature shifts to prevent breakage. Exercise care, as ovenware products may fracture if swiftly transferred from the freezer to a preheated oven. Our tableware collections made of stoneware and porcelain should not be placed in the freezer.

Marks, scratches and stains

Plates and bowls will get cutlery marks and small scratches of usage. Especially unglazed and matt glazed surfaces are even more sensible compared to normal and glossy ceramic surfaces. Neither are perceived as production faults. The marks can to some extent be removed with Vienna chalk on white items or polishing material for glass ceramic cooking plates, but please remember to follow the instructions for use carefully.

Crazing glaze

Crazing refers to a network of fine hairline cracks that develop on the surface of the glaze. Tableware typically consists of a ceramic body covered with glaze, and when changes in conditions affect the body more than the glaze, crazing can occur. Exposure to moisture, such as soaking, can cause the item to expand or contract, leading to crazing. Additionally, repeated heating or cooling, as well as use in a microwave or dishwasher, can contribute to crazing over time.

Crazing may result from:

- sudden fluctuations in temperature and humidity
- exposure to moisture, especially if soaked
- being bumped or moved around

Crazing typically occurs with age, which is why you often find crazing on vintage and antique items more frequently than on new ones. However, crazing in glaze is not considered a production fault.

Cutlery

Our cutlery will serve you for years to come with proper care and use. Stainless steel needs to be understood by its name. Not stain-free, but stains less, and by stains, we mean rust. No steel alloy is 100% resistant to all the food or chemistry in our kitchen. It can erode the surface and cause rust stains. So please be aware that food acids found in ketchup, mustard, egg, lemon, etc. and ferrous and chlorinated water can attack steel and cause rust stains. Therefore, we recommend that the cutlery is rinsed or washed immediately after use.

Most of our cutlery is dishwasher safe but as with all cutlery, be careful using aggressive dishwasher detergents. We know it's more convenient to use the dishwasher than washing by hand, but it won't risk shortening its colour or lifespan.

Our cutlery ranges are manufactured from 18/8 chrome /nickel steel for the forks and spoons. To ensure the sharpness of our knives, we use special 13/0 chrome steel with carbon. You may therefore find that the blades are more susceptible to rust.

Fiberclay

Fiberclay is an excellent material for outdoor furniture and planters. The mix of fiber and cement makes it solid and beautiful like concrete yet lightweight and easy to move.

Fiberclay is meticulously maintained using a blend of wax and stone oil, offering protection against dirt and stains. In case of minor cracks, it is advised to lightly sand the surface followed by an application of wax for repair. Being a natural product, it exhibits color variations that mature and weather over time in various weather conditions due to the presence of retained salts.

Kindly be advised that fiber cement is not resistant to frost. To ensure its longevity, it should be stored in a dry and frost-free environment during the winter months.

Glassware

The majority of our glassware is hand-blown, a traditional technique that remains widely practiced today. This process involves heating liquid glass and placing it into a mold, where a skilled glassblower shapes it using a blowing pipe. Creating a hand-blown series that achieves consistency and uniformity requires expert artisans. Each glass bears unique characteristics evident in its slight variations in color, size, thickness, and the presence of tiny bubbles. These natural irregularities serve as a testament to the authenticity of our glasses and reflect the connection between the artisan and the glass, telling a story of craftsmanship and tradition.

Dishwasher

Our glasses are dishwasher-safe, and we suggest using the glass program or temperatures below 55 degrees Celsius to prevent glass etching. When loading the dishwasher, place the glasses well-spaced apart to avoid contact with each other or other objects. If available, utilize a stemware rack for added support and stability. After the washing cycle is complete, promptly remove the glasses from the dishwasher or open the lid to prevent the buildup of steam, which may contribute to glass degradation.

Oiled Oak

Hand-wash kitchen accessories crafted from oiled oak. Following use, gently cleanse with a small amount of dishwashing liquid, rinse under hot water, wipe dry, and let air-dry in an upright position. To prevent cracking, drying, or warping, periodically apply oil to keep the boards nourished, thereby preserving their antimicrobial properties.

Lacquered Veneer

Lacquered veneer enhances the individuality of each surface with unique grain patterns, adding to the wood's charm. When it comes to safeguarding the surface, it's important to be mindful of moisture, heat, and sunlight. Any spilled liquids should be promptly wiped away. For stain removal, use a mild detergent followed by a rinse with clean water. Avoid harsh detergents or products containing abrasive powder, as these can dull, scratch, or damage the surface. Additionally, it's crucial to shield the surface from heat or steam generated by hot plates, as this can gradually weaken the adhesive bonding the veneer to the underlying surface. Prolonged exposure to direct sunlight may result in fading of the surface color.

Lacquered veneer is intended for indoor use only.

Lamps

All lamps are CE approved and suitable for 220-240 volt. Table and floor lamps have a two-pin euro plug. For indoor use only.

Marble

Marble is a stunning material with natural variations making each piece unique. We recommend hand-washing marble cutting boards with a mild dishwashing liquid and a soft sponge. Marble is not suitable for dishwashers or exposure to drastic temperature changes, as it can cause cracks. Please use a knife carefully on marble cutting boards as it can damage the knife and scratch the cutting board's surface.

Candles

Broste Copenhagen has a long tradition of producing candles with the best manufacturers in Europe. We use modern quality standards as a benchmark for all our candles. We work exclusively with selected raw materials such as fully refined paraffin wax, high-grade stearin, and pure cotton wicks in our production. We are committed to having our candles tested by neutral and independent product testing services to maintain our position.

All our candles are made without palm oil.

Our candles are tested according to the three EU norms:
EN 15493 specifications for fire safety
EN 15426 specifications for sooting behaviour
EN 15494 specifications for product safety labels

Additionally, to consistently ensure the high quality of our candles, our in-house quality management continually controls both finished candles and raw materials. All test results are documented accordingly. Reliable quality and continuous product development and improvement are the basic principles we have committed to throughout the years.

Scented Candles

All scented candles are made from soy wax - a processed form of soybean oil. Soy wax is a natural wax made from a renewable and eco-friendly source. Burning soy candles does not increase the CO₂ level in the atmosphere.

NEVER LEAVE A BURNING CANDLE.

Never leave wick trimmings, matches, or any other material in the wax pool, as these can create a fire hazard.

Please always trim the wick to 1 cm before lighting the candle, and make sure that the wick is upright.

Pieces of wick that have been cut off or other items that fall into the candle wax can re-ignite, causing the candle flame to become much larger than is safe, even if it is in a container.

Dispose of all packing materials or foreign matter before lighting a candle. Some of our candles have a paper band wrapped around them or a wicked tag. Make sure to remove any of these items from your candles before lighting them, so they do not catch fire.

The wick is made so that the candle burns safely. If a wick becomes too short, it will produce a too small flame for the candle to burn correctly.

Extinguish the flame and carefully pour off the liquid wax to fix this. Relight the candle and allow it to burn for about one hour. If the flame is still too small, repeat the process until the flame can continue burning the wax it has melted with a regular size flame.

Prolonged exposure of candles to a temperature below minus degrees could cause the wax to crack.

Important information – safety

Do not leave candles in direct sunlight or at temperature below 0 °Celsius. Candles will get damaged under extreme temperature changes.

Warning!

Never leave burning candles unattended.

Keep burning candles out of reach of children and pets.

Keep a distance of at least 10 cm between two lit candles.

Keep lit candles away from flammable materials and keep away from anything that can catch fire.

Trim wick down to a minimum of 1 cm and always trim the wick if candles give off sooty smoke.

Avoid sooty smoke, use a candle extinguisher instead of blowing out the candles.

Always place candles in steady candleholders that will not burn.

Do not place candles in a draught.

Do not leave candle in direct sunlight or at temperature below 0 °C. Candle will get damaged under extreme temperature changes.

Cut the edge of pillar candles down if it gets too high, so the candle burns evenly.

Maintenance of upholstery furniture

We recommend using tested and approved upholstery care kits for impregnation and stain removal. When vacuuming or spot cleaning, avoid rubbing the fabric too vigorously to prevent pilling.

For non-greasy stains, gently dab the affected area with a sponge soaked in clean, warm water. If necessary, use water and alkaline-free soap for stain treatment, and always rinse with clean water afterward. If unsure, seek professional advice.

Regularly vacuum the furniture using the upholstery nozzle or a soft clothes brush, brushing in the direction of the nap to remove dust and prevent fluff and pilling.

Fabric upholstery should not be exposed to direct sunlight, as some fabrics may fade faster than others. As a general rule, synthetic fibers and light colors tend to fade less, making them a better choice for furniture exposed to sunlight.

Wool fiber is a natural material known for its exceptional properties, providing warmth and comfort. It is also durable, elastic, and naturally dirt-repellent due to the lanolin present in the wool. Initially, wool may shed some excess fibers from the surface, known as pilling. However, this does not impact the quality of the material; instead, it signifies its natural and high-quality nature.

Polyester fiber, on the other hand, is durable and easy to maintain, making it an ideal choice for areas with heavy wear. Trevira CS fiber is a flame-retardant polyester that boasts a strong environmental profile.

Velour fabric may become wrinkled or crumpled during transportation or prolonged use. To restore its appearance and revive the pile, steam can be applied using an iron or steamer from a distance of 2-3 cm. Afterwards, gently comb the fabric with a soft brush in the direction of the pile.

Martindale

Martindale is the standard measure of durability. For heavy usage, abrasion resistance (Martindale) should exceed 20,000, while for everyday use, a rating of 10,000 or higher is sufficient. Our curated selection of fabrics ranges in abrasion resistance from 20,000 to 120,000 Martindale. Fabrics with a Martindale rating exceeding 80,000 are suitable for commercial/public use.

Lightfastness

Lightfastness refers to a textile's capacity to maintain its color when exposed to light, rated on a scale from 1 (poor) to 8 (excellent). Lower lightfastness indicates a higher likelihood of color fading over time.

Pilling

Pilling refers to the degree to which fibers accumulate on the surface of the textile, forming small balls or lint, known as bobbles. These bobbles can appear due to factors such as wear, dirt, or the use of inappropriate cleaning agents. Pilling is rated on a scale from 1 (poor) to 5 (excellent).

Our labels

Oeko-Tex Standard

The Oeko-Tex Standard 100, developed by a group of European textile institutes, is a global testing and accreditation programme for screening harmful substances in consumer textiles. Products with the Oeko-Tex label are tested and guaranteed to be free from all harmful substances, including toxins and irritants.

Nordic Swan

The Nordic Swan is the official eco-label of the Nordic countries, ensuring products with minimal environmental impact and products checked for unhealthy and harmful substances.

FSC

When you choose FSC® as a consumer or business, you are helping to ensure the natural and social working conditions in the forests that the wood origins. In an FSC® forest, there are only felled as many trees as the forest can manage to reproduce. FSC® is the environmental standard for responsible forest consumption. Please look for the FSC logo on our FSC certified products.

Global Compact

We are pleased to confirm that Broste Copenhagen reaffirms its support of the Ten Principles of the United Nations Global Compact in Human Rights, Labour, Environment and Anti-Corruption. Please visit www.brostecopenhagen.com for more info.

Sales Support

info@brostecph.com

Online ordering advantages

- Shopping 24/7
- No waiting time
- Fast delivery
- Easy to reorder, using your customised list of favourite items
- Unique access to special deals
- Inspiration, tips and trends
- Summary of precedent/previous order

Sales & Delivery Terms

brostecopenhagen.com

Prices in the catalogue are net prices and excluding VAT. Prices are valid from July 1st 2024 – December 31st 2024.

Due to the fluctuations in the global foreign exchange markets, and due to the rising raw material prices, we reserve the right to change prices without prior notice.

We take reservations for any typographical errors.
