HERITAGE

The bricks of life build us all. Like marvellous masterpieces. We build life moment-by-moment, experience-by-experience, each moment and experience resting on the foundation we've already laid - closely entangled with the bricks given to us at birth.

Our heritages.

Our inherited sense of identity comes in many forms; values, traditions, culture, genes, wealth, and even horrible artefacts handed down to us through generations. Maybe you have that characteristic smile, or you walk deep in your grandfather's shoes, or you have a last name that makes eyes light up - even though there is no word worth to be told. Heritages can be both the light and the hollow echo throughout our lives.

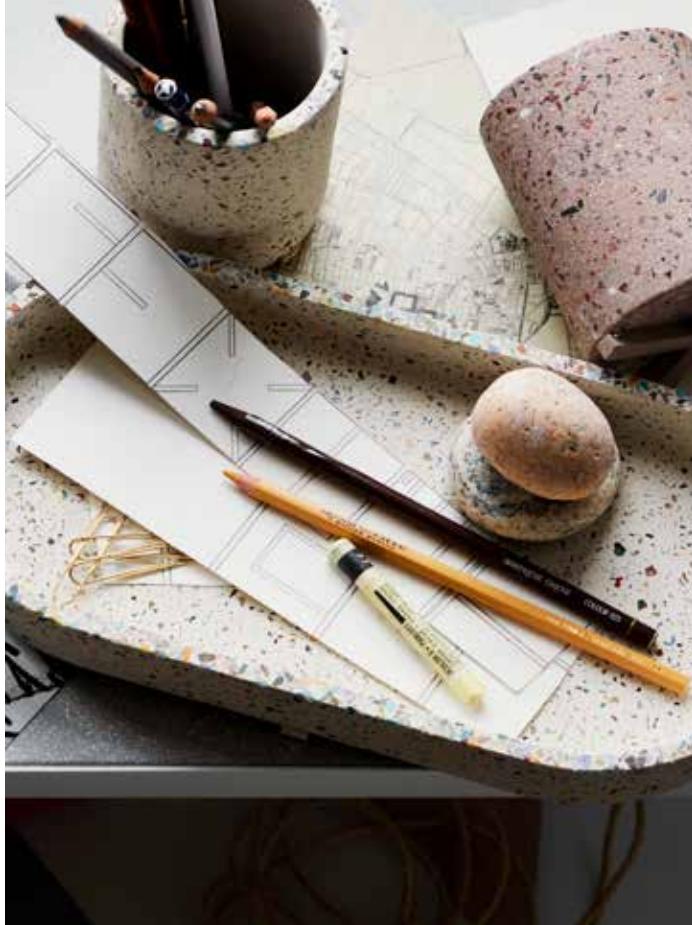

In Spring/Summer 2021 we are setting it all free and embracing all our bricks to focus on putting them together one by one. When it's not all about the individual bricks, we can take it all in as a whole. It's all about using your imagination, a spirit of make-believe, exploring possibilities, and being playful. Being playful and allowing ourselves to receive the unknown or the known in an unfamiliar way. Sense our playfulness through colour and form and enjoy this Spring collection.

Embrace your heritage and set yourself free.

DRIVE YOU

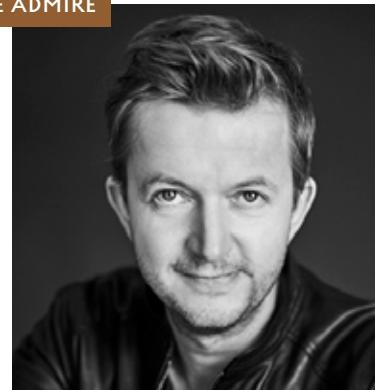

GINE LAMPS

Design by Ulrik Nordentoft

PEOPLE WE ADMIRE

"I was inspired by a tailor's mannequin, thereby the name, Gine, which it's called in Danish where I was triggered by the ease of changing expression. Imagine insuring that kind of dynamics to a lamp with vibrant colours and materials."

Ulrik Nerdentoft entered the Danish design scene almost two decades ago after graduating from the Danish Design School in 2000. Ulrik established his own design studio and has earned international recognition and received various design awards for his products and interior design.

The Gine Lamp series by Danish designer Ulrik Nerdentoft joins together the ideas of pragmatic and functional design with a playful new perspective to the modern lamp.

Nerdentoft's design philosophy is honest and hands-on with a clean and minimalistic language. While mindfully balancing aesthetics and functionality he lets the nature and quality of the materials influence the form and usability of the design, generating objects with a clear sense of timelessness. "What I like the most about the Gine Lamp Series is that it is so intuitive and straightforward. You have something simple and minimalist, that allows you to transform it - redress it and get a new expression matching your interior.

The series consists of three lamp bases for the table, floor, and ceiling which can be paired with all the Gine shades. The shades are available in white opal glass and five colours in metal across two sizes, allowing you to release a playful element to your interior design. Ulrik's finally notes "It doesn't just sit there, it changes your space, and it changes the way you interact with your space."

SVANTE SHELVES & NINNA TABLES

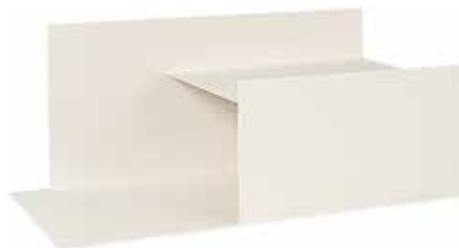

Design by Maiken Lindhardt

"The idea behind the Svante series was to design small storage units with a simple expression and a high level of functionality," tells designer Maiken Lindhardt. Noting on the expression of the design, Lindhardt explains: "The two shelves evolved from an ongoing study of compositions and functional needs - by modelling levels and surfaces," and adds: "I wanted to see if it was possible to achieve several types of storage solutions with a sculptural composition."

PEOPLE WE ADMIRE

Maiken Lindhardt holds a master's degree in furniture and product design from The Royal Academy of Fine Arts in 2018 and a remarkable upcoming designer with an established studio based in Copenhagen.

The Svante shelves are available with and without a mirror across two colours, allowing you to use the design alone or to have a mixed wall installation.

"Every inch of the design is optimised to give the user a perfect combination of places to display objects as well as hide them away," says Lindhardt. They are crafted in Europe in powder-coated steel and are elegantly mounted to the wall by a suspension rail - a detail Maiken Lindhardt is quite fond of.

"It started as an idea of creating a connection between the industrial look and a soft cozy feeling."

Maiken Lindhardt is also the designer behind the Ninna Table series which is designed to make a clean aesthetic addition to any home or any office. This is achieved through the combination of material, colour, and form. Along with the strong visual expression, the tables are carefully thought out to meet functional needs in large and useful storage spaces.

The tables come across three colours and are crafted in Europe in matte powder-coated steel. The collection consists of two tables that are proportioned to either stand alone or in combination with each other and by adding the pillow to the Ninna Table High you can change it into a stool.

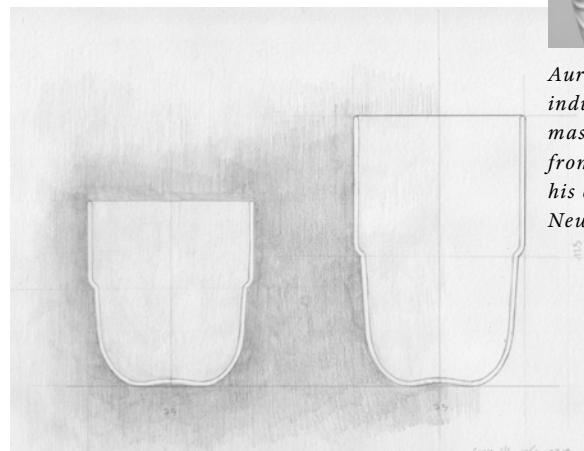

NORDIC BISTRO DRINKING GLASSES

Design by Aurelien Barbry

PEOPLE WE ADMIRE

"The design needed to be functional, simple and yet original with a recognisable outline", tells Aurelien Barbry and adds, "the initial idea behind the drinking glass was brought to life at a cafe in Copenhagen where I observed the waiters behind the counter and recognised that the function of a glass reaches beyond containing fluids".

Aurelien Barbry is an acknowledged industrial and interior designer with a master's in Industrial & Interior Design from Ecole Camondo, Paris 1996 with his own studio in Copenhagen and New York.

"Design is an exercise where you take the simplest things in your daily life and ask yourself how they could be done differently."

On his idea for Nordic Bistro, Barbry notes: "I wanted to bring a statement to the table which was both stackable and easy to dish because both space and time is limited at home and at a restaurant."

The Nordic Bistro series consists of six different stackable drinking glasses, three water glasses in different sizes, and three wine glasses, all in the unique colour "Smoke".

TABLEWARE

TABLEWARE / ELI

The minimalistic Eli collection is characterized by its round edges and soft colours, which gives connotations to the modern Japanese tableware. Fine and refined. Japanese culture has a certain aesthetic to it that is entirely its own, and there are few places where this is more evident than the dining table.

The Japanese inspired collection has above all an aesthetic utility and consists of five ceramic items; two cups with or without handle, a small charming jug, a bowl and a rectangular plate. The collection is designed in five different coloured glazes, which give the collection a playful touch where the reactive glaze creates an organic feel and ensures not two items are exactly alike.

The playfulness doesn't stop here. Only the soft blue has a glossy glaze - reflecting light and adding vivid accents to the surfaces. The matte finish of the other items is unreflective and opaque, and has a subtle texture to its surface that is reminiscent of natural stone.

The vivid and soft idiom of the Eli tableware creates everyday design joy and invites to mix and match with the colours and other tableware. They complement one another beautifully and are perfect for creating a unique and stunning table.

TABLEWARE / LIMFJORD

The Limfjord is a unique inlet separating the North Jutland Island from the rest of Jutland in Denmark. From above the curvaceous coastline is beautifully outlined and going under waters a captivating underworld of limestone is revealed.

The new tableware series is inspired by Limfjord's seafloor. The organic shapes and soft tones of the plates, platters and mugs are inspired by the mussels, oysters, and cockles from the grand and silent world underneath us. Mix and match it with other tableware and bring an effortless expression to the table.

TABLEWARE / GRØD

The Grød x Broste Copenhagen selection consists of fifteen unique designs. The collaboration between Grød and Broste Copenhagen is all about exploring and challenging the Nordic traditions - with a focus on traditional minimalist designs and a modern and curious approach. Broste Copenhagen's knowledge about design inspired by the Nordic nature combined with Grød's passion for developing modern and culinary porridge was the perfect foundation for collaboration on a shared dream.

TABLEWARE / NORDIC SAND

Nordic Sand is the descendant of our popular Nordic Sea collection, epitomizing the same organic designs in natural sand-like nuances for a different expression. The colour of the glaze combined with this particular firing process creates a look that perfectly resembles the erratic sands of the wind-swept Nordic seashores. The Nordic Sand design is simple, raw and aesthetically pleasing at the same time.

Every piece is unique, as the glaze responds to the shifts in the firing process, which results in different textures and colours.

TABLEWARE / NORDIC COAL

A strong expression and organic shapes constitute the foundation of this selection. Nordic Coal is a development of our popular Nordic Sea and Nordic Sand tableware. This strong and unique selection is inspired by the power of nature and its beautiful raw materials, making it the perfect fit for a cosy Nordic home. All pieces are unique, with a variety in textures and colours. The individuality of the tableware items is part of the overall look.

Mixing this selection with our additional tableware selections such as Nordic Sand or Copenhagen is ideal if you want to soften up the look and create a contrasting expression.

TABLEWARE / TISVILDE

This tableware collection is inspired by Tisvilde, a small coastal town on the island of Zealand. Tisvilde is a collection of tableware essentials that makes any table setting stand out by interpreting the natural surroundings of the town of Tisvilde and the beautiful view of the sea.

The matte and raw exterior clashes intriguingly with the shiny, glazed inner surface, instantly sparking curiosity and fascination. To achieve this finish, a certain technique, by which the clay is coloured all the way through, is used. This technique differentiates from the normal glazed finish.

The collection offers a range of sophisticated essentials for the modern table including plates, cups, an egg cup, a tea pot, and bowls. The elegant pieces from our TISVILDE collection make formality and Nordic minimalism instantly achievable.

TABLEWARE / SALT

Embrace your inner minimalist with our elegant Salt collection. With a focus on classic shapes, elegance, and edginess, this collection is characterized by its white special glaze and beautifully hand-painted black rims.

The unique look of each piece is achieved with a special glaze, which in the firing process develops a distinctive texture and colour. With an option of dots, the collection can be eclectically mixed for a personal table design. This collection is the perfect choice if you are looking for classic yet modern tableware. Its soft look and organic shapes make this selection perfect for a minimalist and nifty table.

TABLEWARE / ESRUM

This Nordic minimalist tableware collection is inspired by Esrum, a small Middle age town on the island of Zealand known for Denmark's second largest lake. Taking inspiration from the bright sky reflected in the dark waters creating a stunning view with great contrast. All pieces come with two diverse textures in a white and dark ivory glaze, which react individually to the firing process, adding another dimension - just like looking into the deep of Lake Esrum.

TABLEWARE / COPENHAGEN

Since the launch of the Copenhagen collection in 2011, The Copenhagen collection draws you to the streets of Copenhagen with its delicate lines and elegant Nordic shapes accentuated by the soft tones of the beautiful ivory glaze, making this collection ideal for your Nordic table setting.

Amplify the visual impact of smaller decorative items and mix this classic and simple selection with colourful plates and bowls and create a personal and exclusive look when setting the table.

IMPORTANT INFORMATION - CANDLES

We use modern quality standards as a benchmark for all our candles. In our production we work exclusively with selected raw materials such as fully refined paraffin wax, high-grade stearin, and pure cotton wicks. In order to maintain our position, we are committed to having our candles tested by neutral and independent product testing services.

All our candles are made without palm oil.

**NEVER FORGET A BURNING CANDLE, IT IS LIKE AN OPEN FIRE.
NEVER LEAVE UNATTENDED.**

Our candles are tested according to the three EU norms

Specification for fire safety
Specification for sooting behavior
Specification for product safety labels

Additionally, to consistently ensure the high quality of our candles, our in-house quality management continually controls both finished candles and raw materials. All test results are documented accordingly. Reliable quality and continuous product development and improvement are the basic principles to which we have been committed throughout the years.

IMPORTANT INFORMATION – SAFETY

Warning!

Never leave burning candles unattended.

Keep burning candles out of reach of children and pets.

Keep a distance of at least 10 cm between two lit candles.

Keep lit candles away from flammable materials and keep away from anything that can catch fire.

Trim wick down to a minimum of 1 cm and always trim the wick if candles give off sooty smoke.

Avoid sooty smoke, use a candle extinguisher instead of blowing out the candles.

Always place candles in steady candleholders that will not burn.

Do not place candles in a draught.

Do not leave candle in direct sunlight or at temperature below 0 °C. Candle will get damaged under extreme temperature changes.

Cut the edge of pillar candles down if it gets too high, so the candle burns evenly.

Do not use the rustic hurricane without sand or other non-flammable material in the base as illustrated.

Never leave wick trimmings, matches, or any other material in the wax pool as these can create a fire hazard.

Please always trim the wick to 1 cm before lighting the candle, and make sure that the wick is upright.

Pieces of wick that have been cut off or other items that fall into the candle wax can re-ignite causing the candle flame to become much larger than is safe, even if it is in a container.

Dispose of all packing materials or foreign matter before lighting a candle. Some of our candles have a paper band wrapped around them or a wicktag. Make sure to remove any of these types of items from your candles before lighting them so they do not catch fire.

Only our candles with parchment around may be lit with the paper around.

The wick is made so that the candle burns safely.

If a wick becomes too short it will produce a flame that is too small for the candle to burn correctly.

To fix this, extinguish the flame and carefully pour off the liquid wax. Relight the candle and allow it to burn for about one hour. If the flame is still too small repeat process until the flame is able to continue to burn the wax it has melted with a normal size flame.

Prolonged exposure of candles to temperature below minus degrees, could cause the wax to crack.

IMPORTANT INFORMATION - ENGLISH

GOTS

GOTS Certified Organics. The Global Organic Textile Standard (GOTS) is a standard used around the world, which guarantees that the organic products you bring into your home are healthy and safe for you and the environment - and provide a fair working environment for those who manufacture them. The aim of GOTS is to be a credible resource for consumers looking for textiles that are produced in an environmentally and socially responsible method. Not only are these fabrics free from harmful chemicals, but also the production poses no threat to the environment or the communities in which the products are produced. This universal standard assures that no harmful or toxic chemicals are used from harvest to manufacture, including the dyeing, washing and finishing processes. This standard even examines the disposal of waste and wastewater treatment. Strict guidelines have to be met in working conditions as well; companies must provide a safe and hygienic environment with liveable wages, appropriate working hours and absolutely no child labour. www.global-standard.org

OEKO-TEX STANDARD

The Oeko-Tex Standard 100, developed by a group of European textile institutes, is a global testing and accreditation programme for the screening of harmful substances in consumer textiles. Products with the Oeko-Tex label are tested and guaranteed to be free from all harmful substances, including toxins and irritants.

NORDIC ECO-LABEL (NORDIC SWAN)

The Nordic swan is the official eco-label of the Nordic countries, ensuring products with minimal environmental impact and products checked for unhealthy and harmful substances.

FSC®

When you choose FSC® as a consumer or business, you are helping to ensure the natural and social working conditions in the forests that the wood comes from. In an FSC® forest, no more trees are chopped down than the forest can manage to reproduce. FSC® is the environmental standard for responsible forest consumption. Please search for the FSC logo at our FSC certified products.

GLOBAL COMPACT

We are pleased to confirm that Broste Copenhagen reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption. Please go to www.brostecopenhagen.com for more info.

GLOBAL RECYCLE STANDARD

The Global Recycle Standard is an international, voluntary product standard and a certification for recycled material, chain of custody, social and environmental practices and chemical usage limitation. These are standards set to protect the environment. The Global Recycled Standard is intended for use with any product that contains at least 20% recycled material. Each stage of production is required to be certified, beginning at the recycling stage and ending at the last seller in the final business-to-business transaction. Material Collection and Material Concentration sites are subject to self-declaration, document collection, and on-site visits.

SCENTED CANDLES

All scented candles are made from soy wax - a processed form of soybean oil. Soy wax is a natural wax made from a renewable source. Burning soy candles does not increase the CO₂ level in the atmosphere.

TABLEWARE CERAMIC

Overall colour and shades may vary. The colours are very sensitive to atmosphere and flow when fired, resulting in individual ceramics of varying textures and colours. All our tableware are dishwasher and microwave safe.

TABLEWARE PORCELAIN

Tisvilde porcelain tableware:

Scratches will be more visible on the raw surface compared with normal shiny glaze, giving it a rustic look. Neither scratches or surface wear and tear are perceived as production faults. Unglazed surface is more sensitive towards stains and misinglouring. Most stains can be removed in dishwasher or by soaking in hot water with a dishwasher tablet.

Sandvig porcelain tableware:

This product is glazed with a mat glaze which gives the porcelain a unique and rustic look. Scratches and cut marks will be more visible on the surface compared with normal white porcelain, giving it a rustic look. Neither scratches, cut marks or surface wear and tear are perceived as production faults.

CHOPPING BOARD

Rinse your wooden chopping board under hot water, do not let it soak; soaking will make it split and warp. Wipe it dry with a tea towel and let it air-dry. Wooden boards need to be seasoned to prevent staining and to keep food odours and bacteria from developing on the surface. Use an oil type that can be applied repeatedly, such as mineral oil. Mineral oil is safe and will fill the wood pores. Daub the oil onto the board and wait for it to soak into the wood. Wipe off excess oil with a clean, dry cloth. Repeat this process at least once every month. Oak is a natural material and a little roughness can be felt on the surface when exposed to water. This will disappear over time.

CUTLERY

The forks and spoons in our cutlery ranges are manufactured from 18/8 chrome/nickel steel. For the knives we use special 13/0 chrome steel with carbon. Our cutlery is dishwasher safe. But we recommend to be careful using aggressive dishwasher detergents. However our HUNE cutlery in espresso and mat black are more sensitive. Therefore these two colours are not dishwasher safe and we highly recommend hand wash only. Using water containing iron or chlorine can result in rust stains on the cutlery. Also food containing a lot of acids such as ketchup, mustard, egg, lemon etc. can cause rust stains. Therefore we recommend rinsing or washing the cutlery immediately after use.

GLASSWARE

Every item is handmade and completely unique and will vary in colour, size and thickness. Small bubbles and irregularities may occur and are not perceived as production faults.

WALL THERMAL GLASSWARE

WALL is a selection of thermal glassware. The thermos glass has a double-walled construction, making it suitable for both hot and cold drinks. Moreover, this new selection is dishwasher safe up to 65 degrees and microwave safe up to 675W and 56 degrees in surface temperature. The glasses can be sensitive; therefore, we recommend not stacking these items.

FOOD SAFE

Product tested and food safe approved. Broste Copenhagen hereby declare that our tableware, cutlery and glassware used for food contact are produced according to EU Regulativ 1935/2004 + 2023/2006 GMP, EU directive 84/500 as well as comply with regulation Act 1248.

Dishwasher safe up to 65 degrees.

Microwave maximum 675 W and maximum surface temperature 56 degrees.

LAMPS / CE

All lamps are CE approved and suitable for 220-240 volt. Table and floor lamps with a 2 pin Euro plug. For indoor use only. Adapter (1510000) available for UK markets only. CORK 100% renewable and recyclable material. Extracted from the bark of the cork oak in cycles of 9 years without harming the tree. Care instruction: Use damp cloth for cleaning.

COPPER & BRASS

Use polish to maintain the shiny look on products made of brass and copper. Rinse the object in warm water. Moisten a sponge with warm water and apply a little polish. Clean thoroughly as required to remove all traces of tarnish. Rinse well in warm water. Wipe with a dry cotton cloth.

MARBLE

Wipe clean with a damp cloth. Do not use abrasive cleaners. Do not soak in water.

RUGS

Please note that all rugs should be placed on a carpet pad. Cotton & denim rugs: delicate machine wash Leather Rugs: Dry clean / vacuum clean.

WOOL RUGS

Ordinary cleaning is done by vacuuming. Vacuum carefully in the direction of the pile and not with the brushes of the nozzle out, as that may ruin the rugs. Rugs may never be chemically cleansed or otherwise exposed to chemical compounds. Felt can be added under the legs of heavy furniture. Please be aware that the rugs will peel because of the short fiber. Please also note that continued exposure to strong sunlight may bleach the rug. Colour may rub off from the reverse side of the rug, so rug underlays are recommended on oiled or untreated floors, vinyl flooring, and other delicate surfaces.

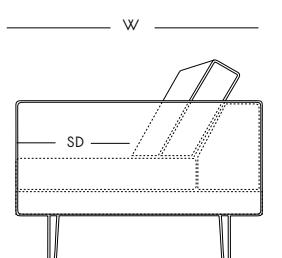

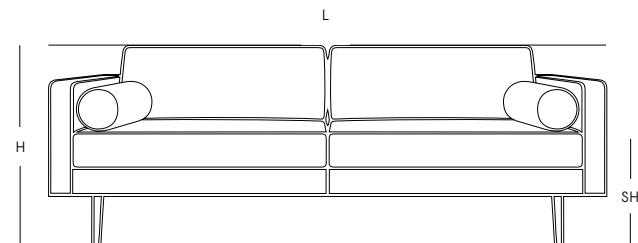

INNER CUSHIONS FILLINGS

The pillows are made of 100% downproof cotton cloth, and produced without using chemicals. The stuffing is duck and goose feather and down, washed at high pressure and dried at a min. of 120 °C for a min. of 20 minutes whereby they reach a safe disinfection level. The feathers come from the EU. The majority of the stuffing is made up of recycled feathers, from slaughtered ducks and geese. Oeko-Tex label.

UPHOLSTERED FURNITURE

Material like velour changes colour depending on the light conditions. This is not a flaw, but a natural quality of the fabric, adding a fascinating dimension to the experience. Remove non-greasy stains by carefully dabbing with a sponge wrung out in clean, warm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water.

Martindale is the unit by which the wearability of furniture fabric is measured. For sofas in private residences, a minimum of 15,000-25,000 Martindale is recommended in order to withstand normal wear.

HOW TO READ OUR FURNITURE MEASUREMENTS:

H Distance from the highest point of the backrest to the floor

L Longest distance from left to right

W Distance from front to back of the sofa

SH Distance from the floor to the top of the seat cushion

SD Distance from front of seat cushion to the point where the back cushion starts

Modul sofa Lake, can be joined together with an alligator bracket (included with the furniture)

TEXTILES

Cushion covers and plaids: Machine wash 30 degrees.

Cotton hand towels and dishclothes: Machine wash up to 60 degrees. Cotton & linen: Machine wash 30 degrees. Velvet bed spreads: Dry clean only.

Products marked with UV bleach less in sunlight.

ENAMEL TABLES

Our enamel tables are handmade. Do not place the tables directly in the sun since they are not UV treated. For cleaning please use a damp cloth (water only).

FIBERCLAY

Fiberclay is a strong natural material produced for outdoor use. Naturally retained salts will ensure a natural ageing.

For best care please:

Use stone sealer or wax treatment of fiberclay. Use wood oil for protection and treatment of oak after cleaning/sanding. For extra caution protect your furniture from hard freeze. Ensure drainage to avoid cracks.

A/ = assorted. Prices are per item (e.g. A/4 = 4 different).

S/ = set. Prices are per set (e.g. S/2 = a set of 2 items).

EMBALLAGE

All of us remember the experience of opening a birthday present. It's the excitement and anticipation of not knowing what is inside and wanting to savour the moment. In recent years, unboxing has gone from being a seasonal pleasure to an online fad to a must-have for most brands, including us.

Please give our new packaging a warm welcome.

customised list of favourite items

Unique access to special deals

Inspiration, tips and trends

Summary of precedent/previous orders

Sales and delivery terms

brostecopenhagen.com

Prices in the catalogue are net prices and

excluding VAT. Prices are valid from

January 1st 2021 - June 30st 2021.

Due to the fluctuations in the global foreign
exchange markets, and due to the rising

raw material prices, we reserve the right to
change prices without prior notice.

We take reservations for any
typographical errors.
