Deck the halls with modern magic and cozy classics

Welcome to a new Christmas season where family memories and cosy interiors collide with a dash of contemporary enchantment. Embracing traditional paper ornaments in vibrant shades, we tap into our childhood whimsy, bringing intricate nutcrackers, graceful ballerinas, and celestial angels to life on our windowsills, in the living room, and upon our Christmas trees. Meanwhile, dainty forest mushrooms and ornate spinning tops sprinkle a hint of playful charm throughout the overlooked corners of our abode.

**We wish you a merry Christmas
- and a happy homely holiday.**

Home is where the B is**

Feel Good

We are all trying to do the right thing. Buy consciously and act responsibly. Sometimes it is easy to be confused as a consumer when deciding on how you choose wisely, when there are so many options out there. At Broste Copenhagen we want to ease your mind, assist your purchasing process, and make you Feel Good about the items that will inhabit your home. This is why we have made a guiding label for all the items that we are especially proud of from a responsibility stand point. Maybe they are a result of upcycling, recycling, or ecological farming. Maybe they require less transportation or are easy to repurpose. Maybe they are recyclable, or maybe they are just made from better materials than your average options. Regardless the story behind the product rest assured: When choosing a “Feel Good” item, you are making the better choice for your home, your family and for your own peace of mind.

Feel Good

It's beginning to look a lot like ... a Consious Christmas

Sprinkle beauty and enchantment throughout your home with a delightful twist on timeless Christmas symbols: The graceful ballerina, the jolly nutcracker, and the sacred, radiant light. Bringing a touch of happiness and fond memories to its surroundings and perfect for adorning your tree.

Infuse your holiday decorations with sophistication, nostalgia, and eco-conscious charm.

Fairytale Ornament

Nothing feels better than turning trash into treasures and one of these small treasures is the cotton paper used for several of our bestselling designs. At Broste Copenhagen we are always looking for new ways to reuse redundant materials or recycle waste - and in the case of the cotton paper we succeed in a truly remarkable way. Cotton paper is created out of fiber waste from the textile industry, and the paper is soft to the touch, acid-free, durable, and versatile.

Responsible Stella Collection

As more and more sustainable components become available to our production team, it becomes even easier to create climate conscious products. At Broste we are delighted to introduce banana paper into our range of designs, as it is an eco-friendly substitute for traditional paper materials. Derived from recycled banana tree bark, the banana paper is a durable and versatile material that benefits from the high density and strength of the banana plant's fibers.

Candles

Light a candle with a clear conscience

Nothing sets the mood as the lighting of a candle and nothing is more important to us, than ensuring that this act of 'hygge' comes with a clear conscience. This is why all Broste Copenhagen candles are carefully crafted within the EU and made from premium quality paraffin or candle wax. All candles are free from palm-oil, vegan, have a low soot index and are made with a 100% Oeko-Tex certified cotton wick.
