A Classic Christmas, Reimagined

Broste Copenhagen's Christmas 2026 collection brings timeless holiday warmth with a modern touch. Rich reds, deep greens, and soft whites blend effortlessly, allowing you to create a festive home that feels both familiar and new.

From classic baubles to sculptural candleholders, each piece balances tradition with subtle contemporary details. Glass, brass, and delicate metal finishes add texture and reflection, while Nordic-inspired stars and doves bring a poetic charm to windows, branches, and tables.

This year Broste Copenhagen invites you to shape a Christmas that feels personal and inviting - where classic details meet modern creativity. Let the 2026 collection fill your home with warmth, joy, and the simple beauty of a Scandinavian Christmas, designed to be enjoyed year after year.

A season where classic shapes meet playful touches, and handcrafted design brings warmth and character to every space.

Rich reds, deep greens and soft whites set the scene for a classic Christmas with a modern twist.

A celebration of small delights: shimmering glass, graphic patterns and ornaments with a hint of nostalgia.

A Christmas that feels familiar, yet refreshingly new, where classic comfort meets thoughtful design.

Christmas Candle Holders

Halo Candle Holder

A golden circle that frames the Advent season. This round wreath is crafted in a warm gold finish and available in two sizes – one for pillar candles and one for taper candles. Designed to rest on a table or hang freely from the ceiling, the integrated hooks allow the wreath to float lightly in the room, creating a soft and sculptural expression. Minimal in form yet rich in possibilities, the wreath can be left bare or decorated to reflect a personal style. A timeless piece that lets tradition unfold in a quiet, contemporary way.
