MUUBS

BEAUTY IN IMPERFECTION

IN GENTLE MOTION

The collection explores the gentle movements of life, where emerging energy and the organic forms of nature set the scene for a new season that opens to fresh colours, shapes and sensory impressions. The collection explores movement through a calm and organic design language, where soft silhouettes and flowing forms create a natural sense of lightness.

Organic shapes and tactile surfaces bring the lightness of spring into the home. The sensory expressions create a setting for everyday life and invite exploration through sight, touch and taste – from informal serving to experiences that unfold into moments of connection and presence.

Rooted in the renewal of spring and its changing sensory impressions, the collection invites an exploration of the subtle shifts that emerge as winter loosens its grip and colour, flavor and inspiration return.
