

The image is a full-page advertisement for MUUBS. It features two wooden chairs with dark upholstered seats. The chair on the left is a modern, angular design with a wide, flat backrest and four legs. The chair on the right is a simpler, more traditional design with a curved backrest and four legs. Both chairs are positioned in a room with a rough, textured wall and a concrete floor. A piece of driftwood is leaning against the wall on the right. The lighting is soft and natural, creating a warm and rustic atmosphere.

BEAUTY IN
IMPERFECTION /
**EACH PRODUCT HAS SOUL
AND ITS OWN STORY,
WHICH GIVES IT
A UNIQUE
EXPRESSION**

At Muubs we strongly believe in preserving originality and creating long-lasting design products with a touch of roughness. We make objects for the home that celebrate the individuality of the people living in it. Products that create contrast, play with your imagination, age gracefully and add the missing piece of soul and roughness to our homes. We call it "beauty in imperfection"

THE AUSTIN COLLECTION consists of distinctive coffee tables and storage furniture, designed with well-defined lines and contrasting leather details. Austin furniture embraces minimalism and purity, and its elegant and masculine expression adds a sculptural element to the interior.

LIGHT AND ELEGANT DESIGN EXPRESSION

The Austin collection has a masculine and elegant design expression that adds a sculptural design element to the room. Austin is designed with defined and graphic lines and angles, and has a recognizable and minimalist look that fits perfectly into the Scandinavian design aesthetic. The stylish furniture forms a perfect starting point for the interior design of the living room, but at the same time contributes peace and harmony.

A MIX OF MATERIALS CREATES AN EDGE

The Austin collection is designed in an attractive combination of iron and leather, which creates beautiful variations in the surface that attract attention. The combination gives a graphic and raw look to your decor.

With the coffee tables, you can create your own personal coffee table, as the panels can be moved around and add the expression to the interior that you want. With the storage furniture, you get an elegant solution that creates mystery and curiosity for what is hidden behind the doors.

VERDE side table celebrates beauty and simple elegance in an enchanting combination with rustic finishes and a robust, masculine expression. Verde is created from green marble, which is deservedly celebrated in naming the side table. Verde is designed by geometric shapes in a simple construction that gives weight and elegance at the same time. The side table also hides beautiful nuances and play of colors, while rustic details and finishes symbolize its origins in the mountains.

CHAMFER Made with defined lines and angles, the Chamfer chairs have a recognizable and distinct look. The subtle details frame the chairs and bring a refined design. Every chair in the collection, which includes both dining room chairs, lounge chairs and barstools, is upholstered with stonewashed canvas and have black powder-coated legs, which create disparity and a unique contrast in terms of texture.

Designed by Birgitte Rømer

In our Surface, Layer and Earth collections, we've created rugs made from up to 40% recycled nylon yarn from used fishing nets found floating around the world's oceans. In the Surface collection, the underside of the rug is made from recycled bottles. The collections consist of several designs, each with its own style.

The exclusive Muubs designs are inspired by the course of life and the surface of the earth, just like the popular Luna jar. The three collections of woven rugs from Muubs offer real selling points when it comes to sustainable textile solutions for the floor, with patterns inspired by the surface of the earth.

**RUGS MADE FROM RECYCLED
FISHING NETS AND PLASTIC BOTTLES**

Inspired by the lunar tactile surface, the Luna collection exudes mystery and beauty all at once.

Imagine a cloudless evening sky where the moon shines brightly and you can see the fine moon craters.

Then take a look at the surface of the Luna vase and let the mind fly towards the raw and unpolished lunar landscape.

/Melancholia jar series

MEMORY is a series of handmade jars, inspired by the different surfaces of the earth and the stories nature can tell. The jars are made of terracotta and finished with a changed, metallic shade that gives a lively and rustic surface that changes depending on the light and thus brings the jars' stories to life.

MUD takes its inspiration and name from just that, mud. The beautiful vase is hand shaped from clay. The organic, round shapes is created by designer Birgitte Rømer, who has not only created a vase, but also a sculpture for the home.

Designed by Birgitte Rømer

Life is a long and unknown journey – a journey that shapes us as individuals and settles our roots and the foundation of who we are. This personal journey pays tribute to Ava, named after the life-giving “Eve”.

Like the tree of life, the Ava candle holder’s three arms branch out randomly and naturally, and with the rustic surface, made of cast iron, the candle holder achieves an authentic and sculptural expression.

KAMA - INSPIRED BY THE INDIAN GOD OF LOVE Driven by love, the name "Kama" is inspired by the Indian god of love and celebrates the love of the imperfect and embraces self-love and everyday luxury. The series' organic shapes and charming details add personality and soul to the interior, and together with a natural and calm nuance, the series achieves a solid and sculptural expression. Enjoy the difference in the small, unique details of each and every day.

The series is made of natural sandstone, and therefore the shade and structure may vary.

THE KURI STONEWARE COLLECTION is made using the traditional Japanese craft of Kurinuki, where designs are created through spontaneity, so the stoneware comes "alive". The Kurinuki technique begins with a rough lump of clay. Hands and simple carving tools are used to create the basic shape. Finally, the item is finished and glazed.

YAMI Rich and dark in colour, the Yami collection brings contrasts and soul into the Scandinavian kitchen interior. The Yami collection is a beautiful addition to the kitchen and on the table with its dark colour – which has also given the collection its name Yami meaning “Darkness” in Japanese. The Yami collection is made from carbonized ash wood which gives the product a burned scent from the wood - this will diminish with use.

DESIGNED BY BIRGITTE RØMER
