ROOM FOR MINDFULNESS WE ARE PROUD TO PRESENT OUR SS23 COLLECTION, FILLED WITH DESIGNS WITH A CLEAR AND SIMPLE MODE OF EXPRESSION MIXED WITH RAW AND SOFT MATERIALS, CREATING A CALM ATMOSPHERE WITH ROOM FOR MINDFULNESS. WITH CALM SURFACES, MASCULINE DETAILS AND A LOVE FOR NATURE, THE CORE OF THE SS23 COLLECTION IS TO CREATE AN ENVIRONMENT THAT ALLOWS YOU TO EMBRACE IMPERFECTIONS AND ACHIEVE THE FEELING OF HARMONY AND MINDFULNESS.

THE AUSTIN COLLECTION consists of coffee tables with simple lines, which with its minimalism and purity add to your living room with sculptural and timeless furniture.

LIGHT AND ELEGANT DESIGN EXPRESSION The Austin collection has a light and elegant design expression that adds a sculptural element to the room. The Austin tables are designed with defined and straight lines and angles and have a recognizable and minimalist look. The minimalist look fits perfectly into the Scandinavian design aesthetic, but it also contributes to peaceful areas with its clean design.

A MIX OF MATERIALS CREATES AN EDGE The Austin collection is composed of different materials of both leather and iron that creates a beautiful and varying black surface that you must touch. The combination creates a graphic and raw look for your decor. The elements in iron and leather can be swapped around to create your own individual table.

DECORATE WITH CONTRASTS AND CREATE YOUR OWN STYLE Put a personal touch on your home by choosing a table with contrasting colors such as black or a combination of several shapes. With the Austin collection you have both options. There are two different shapes in the series: Square and long, so you can choose the one that best suits your living room. The dark color compliments both light shades but is also beautiful together with other dark colors.

Austin is delivered flat packed and is easy to assemble.

SILHOUETTE The beautiful chair collection Silhouette is a tribute to the individual and masculine chair. With its minimalism and clean lines, Silhouette is a beautiful timeless piece of furniture for your home.

CLEAN LINES AND A SHARP GRAPHIC EXPRESSION With its single construction and clean lines, the chair creates the most beautiful silhouette, after which the chair has its name. The solid black base and the warm brown Buffalo leather complement each other beautifully and give the chair a raw and graphic look that adds warmth to your room.

MORE BEAUTIFUL WITH TIME Silhouette is covered with a high-quality leather, which adds the chair with a masculine look. The seat is attached with beautiful stitching, but the narrow leather back is made so that you can easily take it off. On the chair's armrests there is also soft brown leather, which gives the chair a refined finish and provides a beautiful detail.

With time and use, the leather on the chair will patina and become even more beautiful. The patination will also make the leather softer. The chair will therefore eventually tell your very own story, as it will get its own expression based on your story together.

DESIGNED FOR SMALL LIVING WITH A GREAT PERSONALITY Silhouette is a perfect piece of furniture for the small living, as the chair can be easily folded and thus also takes up less space when stored. But Silhouette is also useful in larger rooms, as despite its light design, the chair helps to occupy the space with its beauty and fills the room with its great "personality".

PHILOSOPHY The beautiful lounge chair Philosophy is a tribute to contemplation. With its graphic details and masculine expressions, Philosophy is a stylish and beautiful piece of furniture for your home.

A TRIBUTE TO CONTEMPLATION Philosophy is created from simplicity and simple constructions that give the lounge chair clean lines and invite you to be persuaded to sit and philosophize and let your mind wander, from which the lounge chair has its beautiful and inspiring name. The lounge chair is made with a solid black wooden base and the combination with the warm, rustic leather gives the chair a contrasting and exciting look.

BEAUTIFUL DETAILS Philosophy is made with beautiful high-quality leather and attached to the frame with exclusive details that make the lounge chair interesting to look at, even when standing with its back towards you.

With time and use, the leather on the chair will patina and become even more beautiful. The patination will also make the leather softer.

Philosophy is delivered flat packed and is easy to assemble.

SOHO is an industrial and urban indoor series of stools and benches, which have elegant finishes in their joints and on the braided leather seat. Soho is a beautiful composition of a solid black-painted iron frame combined with a delicious braided seat in black leather.

WHEN DESIGN AND FUNCTION MERGE INTO A HIGHER UNITY The Soho series is not only designed to be beautiful, but comfort is also thought of. The stool and the bench are designed with a small arch on the seat, which helps to raise the height and ensure good sitting comfort. In addition, the braided leather seat is also comfortable.

FITS IN MUTIBLE ROOMS Soho fits right into the spirit of the times by meeting the need for the furniture to be multi-functional. Both the bench and the stool can not only be used as extra seating. They can also be used with advantage in the bedroom for decoration or where you can put the day's clothes.

In addition, Soho will be suitable for welcoming guests in the entrance hall or at the entrance.

RAJA The Raja bench is a beautiful composition of fine, soft details combined with a rustic, simple expression.

The seat is made of mango wood in a grey-brown color that fits perfectly into modern homes, while the frame is made of Eucalyptus wood in beautiful, organic shapes.

The bench is made in Rajasthan in India, from which the name originates and draws inspiration. The natural material of the wood is visible and expressed and gives the bench an exciting and lively expression.

Raja is created with love for nature. The bench has a soft expression with rounded shapes and corners that give it an elegant appearance.

Raja is beautiful and presentable in your entrance and wardrobe, where storage is needed or in your bedroom where the bench can be used for decorations and create soul in your home.

The bench is delivered flat-packed and is easy to assemble.

TERA is a beautiful and majestic stool, made with a careful focus on details that gets the attention and let the eyes wander over it.

The unique Tera stool is made of teak, which gives the stool a beautiful glow. The stool is designed with a shelf that can be used for storage and gives the stool an exciting expression.

The stool tributes the beautiful idiom. The name "Tera" is Indonesian and means temple, which has been an inspiration to the stools iconic design.

The Tera stool can be used and enjoyed in many different rooms as a beautiful bedside table or an extra seating at the dining table.

The Tera stool is flat-packed and easy to assemble.

NEVADA is an industrial and modern bookcase with a raw expression. The bookcase is made with graphic lines and elegant details, where the materials meet, which gives edge to the home.

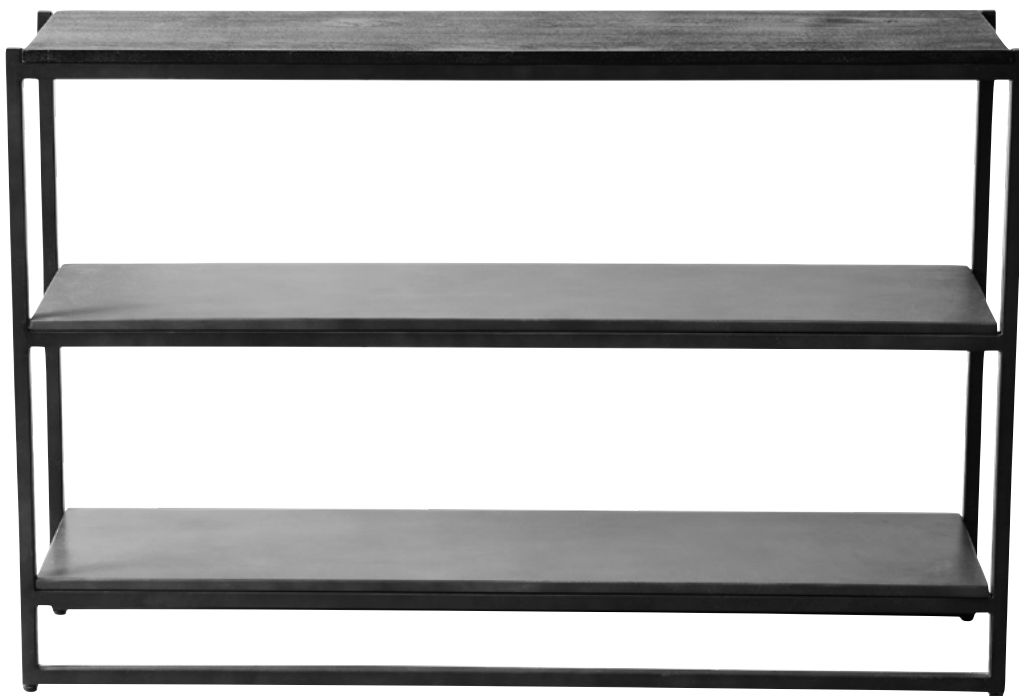

Nevada is a contrasting composition of raw, black-painted iron frame combined with black-painted mango wood on the top shelf, which emphasizes the raw materials and creates an exciting contrast. The two lower shelves are made of metal.

The Nevada bookcase can easily be combined with other products in the characteristic raw material, which gives the home an industrial look.

Nevada is a narrow bookcase that does not take up much space in the room. The bookcase has three shelves that make it possible in the entrance or living room, as the bookcase creates decorative stations for your personal display. Nevada is also practical in the kitchen, as you easily obtain extra space for storage.

The bookcase is delivered flat packed and is easy to assemble.

CAST With a raw polished and lumpy surface, the Cast collection brings both a decorative and functional element to your home. The series is made of aluminum. The products are cast in sand, which results in the uneven surface, and the colour Antique Nickle brings out an extra raw look.

The Cast collection consists of four products; two decorative shelves in different sizes, which can be used to display sculptures, small items you love, or plants. The open half bowl is both decorative with a plant and practical for storage. The umbrella stand can be used for storing umbrellas or as a vase for both dried and fresh flowers. The cast process makes every item unique, which means that they may differ in expression, which is exactly what characterizes a Muubs product. We call this 'beauty in imperfection'.

Screws are attached in the package, and the products are easy to hang.

MEMORY is a series of jars, inspired by the different surfaces of the earth and the stories nature can tell. The name Memory is linked to the stories of nature and the earth, and how new stories are brought to life when you see the jars in different lights. The jars are made of terracotta and are finished with a beautiful brownish shade, which gives a lively and rustic appearance. The attack and the nuances change according to the light and thus bring the little stories to life.

Memory should only be used indoor. The jars are not guaranteed waterproof. We therefore recommend that you place a waterproof bucket or use a plastic cover inside to prevent the water from the jar. Memory are perfect for dried decorations or flowers.

THE TREASURE JARS are inspired by nature and how the nature transforms and acts on other materials.

Especially moss and the meet with other natural materials has played a major part in the inspiration of the surface on jars.

The name Treasure is a tribute to the "treasures of nature" and how the small natural treasure transforms on other materials and creates new stories and lives.

The Treasure jars are made of Terracotta. The tactile surface is formed by hand and makes the surface and story of jars come alive.

This makes each jar unique with its own story and expression, that adds soul and personality to the home.

The Treasure jars is for indoor use only.

The jars are NOT guaranteed waterproof and we do NOT recommend that you plant directly in the jars. Use a plastic pot or plastic inside to protect the surface inside.

MUD With the Mud vase in smoked glass, you not only get an elegant and beautiful vase, but you get an organic sculpture for the home.

The mud vase is originally inspired by mud and the shape is created with the hands in clay.

Mud in smoked glass is made of glass that is cast into a mold and the thickness of the glass might vary. The smoked glass gives the vase elegance and is a beautiful addition to the home.

Fill the vase with a beautiful bouquet of seasonal flowers from colors or the meadow and invite nature inside.

Mud is also available in clay in the colors oyster and chocolate.

SOIL Inspired by the textures of the earth, the Soil collection represents the natural patterns derived from the ground.

The dried-up cracked soil characterizing the South African plains inspired the unique, surface patterns of the Soil collection.

Besides jars and vases the Soil series also contains these beautiful sculptures, which are also made of stoneware. The sculptures are designed to give the room a distinctive look. The rough surface and the organic style pay homage to nature and make you think of the beautiful underwater coral reefs.

FIRE The tealights from the Hazel and Fire series are beautiful with their simple and characteristic details.

The dark terracotta tealight holders bring originality and authentic design to the interior.

Each part has gone through an individual journey to the finished product. Hazel and Fire are made of terracotta and fired on an open fire. It gives the series its soulful, brown color and the tactile surface gives real authenticity to the interior.

The tea lights are food safe, so if you feel inspired, you can use them to serve nuts or snacks.

The set contains 2 tealights.

ERIS The name Eris is inspired by Greek mythology, as the shape and surface of the series are based on ancient Greek architecture. The shape of the candlestick is inspired by the historical columns that give the candlestick a majestic expression. The bowl is shaped with inspiration from ancient ceramics, where the foot gives the beautiful bowl a characteristic expression.

The beautiful series is made of terracotta. The surface is burnt with a special technique that creates a unique and rough surface which tells its own story when you run your fingers over the attack.

KUMO With inspiration from the spider's beautiful web, Kumo is a series of elegant, handmade lanterns that create a vivid and exciting atmosphere when the light is shining through the curly pattern. Kumo means "spider" and has inspired the expression of the lantern.

ELEGANT DETAILS Kumo is a series of handmade indoor lanterns that create a cozy atmosphere when the light is shining through the quirky curly pattern and cast a vivid play of shadows on the wall. The detailed expression of the Kumo lanterns is created from jumbled wire which create the round organic shape. The Kumo lantern has a simple handle which allows you to move the lantern where the light and the cozy atmosphere is desired.

LET THE HORROR SPREAD The curly pattern in the Kumo Lantern is perfect for Halloween. The lantern can be used as decoration and looks beautiful if it is combined with spooky pumpkins.

RAITO The Raito lanterns are designed to give a very special atmosphere when the dancing shadows come out through the grooves of the lantern. Raito means light in Japanese and the lanterns are a tribute to light and the dancing shadow play.

DANCING SHADOWS Raito is a series of indoor iron lanterns that create a cozy atmosphere with lit lights inside. The lanterns are brown on the outside and coated with a gold-plated coating inside, which enhances the glow and warmth of the light. On the top of the lanterns there is placed a handle, so you easily can move the lantern. The narrow beams add beautiful dancing shadows to the room when the darkness descends, and the lights are turned on.

Turn on the light and let the show with the dancing shadows begin.

ORIA With inspiration from a starry night sky, Oria is a series of lanterns created to bring the beautiful and sparkling stars into the home and create a cozy atmosphere. When the lanterns are lit, a glowing light will shine through the holes and send your thoughts in the direction of a starry sky.

A STARRY NIGHT SKY Inspired by the Greek god Orion, whose star formation you can identify in a starry night sky, Oria is a series of lanterns, created to bring the beautiful and sparkling stars into the home and create a cozy atmosphere. The organic shapes of the Oria lanterns are handmade in terracotta, after which the unique holes are randomly poked out with small sticks, which makes each lantern unique. When a light is lit in the lantern, the glowing light will come out through the holes and cast a sparkling and atmospheric light into the room.

Each lantern stands on a teak base, which makes it is easy to light the candle. Just lift the top, light the candle, and then lift the top back to cover the candle.

VALLEY The soapdispenser and toothbrush holder are from the popular and unique Valley series, which is made of Indonesian river stones.

The series in natural stone gives the home a raw look and adds soul and edge to the room. Each product is unique and may vary in expression and shape depending on how the stone is from nature.

The soap dispenser can be used both in the bathroom and in the kitchen.

The Valley toothbrush holder can not only be used for toothbrushes in the bathroom. You can also use it to store your make-up brushes or use it in the kitchen for your dish-washing brush.

SABI The rustic fire pit Sabi is a beautiful and raw outdoor fire pit which can gather and create a cozy atmosphere.

The fire pit is made of rustic iron, which patinas the beautifully over time and acquires its pretty rust color with use.

Sabi is made with three legs, so it stands stable on the ground. The curved and round shape is designed so that wood and gilts are snug inside.

Invite family and friends to a cozy evening with marshmallows and shortbread over the beautiful fire pit.

The fire pit has handles on the side, so you easily can move the fire pit when there is no fire inside it, and the firepit has cooled down.

THE ANGLE STOOL is designed with a careful attention on details, where sustainable solutions have been in focus. The Angle stools is FSC®-certified and produced in Europe to limit emissions from transport.

The stools are available in black and nature which with the same clear design and angled lines add edge and style to the home. With Angle, you get a well-thought-out stool with an innovative design element as well as a functional and simple way of assembling the furniture. The stools wooden joints are made using the "Dovetails" method, where the joints are locked without screws to make the design simple and unique.

The product is flat packed to reduce the use of packaging and limit CO₂ emissions from transport.

You can use the Angle stool as a side table, chair or stool.

Angle nature will soon follow in a FSC-certified version.

Muubs is part of Design Concept Denmark which is a FSC®-certified company.

We all have a responsibility to use nature's resources with care and respect and to leave nature in the best possible condition for future generations. As a company, we have a special responsibility. It certainly takes time and costs money to think sustainably, but, in our opinion, we can't afford not to.

FSC is an international control and traceability system that helps us ensure and document that the wood we use comes from sustainable forestry. This means, among other things, that we only use the wood that the forest can reproduce and that local employees in the forest are ensured health, education and proper working conditions.

COMBINE YOUR OWN FURNITURE Combine Block's bookcases in a myriad of different ways and create a flexible one storage solution.

Use the boxes on the wall or on the floor, where they can be stacked as desired.

Blocks are beautiful both as a single unit, but also combined in different ways in both a symmetrical and asymmetrical shape.

- Takes up less space in the warehouse
- Easy to handle
- Requires less CO2 during the journey
- Same great design
- Easy to assemble
- Still available in smoked and natural
