CYNA LAMP

DESIGN: NORDIC WOOD INTERIOR

Illuminate your space with the Cyna lamp from Andersen Furniture, which spreads a golden light with its beautiful and elegant leaves. Inspired by the refined artichoke plant, Cynara, this Danish-designed lamp brings a touch of nature's beauty into your decor.

The Cyna lamp is crafted from oak veneer, meticulously shaped to rest on a simple yet stylish wooden frame. The fine oak surface adds a warm glow to the room, while the internally gold-painted leaves reflect and enhance the beauty of the light.

The golden light evokes images of a lush beech forest, where gentle spring sunlight filters through the crisp beech leaves. The Cyna lamp casts a soft and warm light, creating lively shadows that gracefully dance across the walls, adding a dynamic atmosphere to the space.

The lamp features an E27 socket and a maximum wattage of 25 watts.
