

LINDDNA

POS CATALOGUE 2024

LIND DNA DISPLAY SOLUTIONS

We have developed a large variety of in-store solutions for retailers. Our displays are designed to showcase our table mats in the best possible way. With the sleek design and the inclination of the shelves, colours and shapes of the products are displayed optimally.

Our space-saving displays are manufactured in Denmark at our own factory. They are crafted in steel and powder-coated in two colours: Soothing Beige or Black. The displays are available in different variants, making it possible to choose designs that best suit your assortment, space, and other store furnishings.

We support our business partners by offering complimentary in-store materials for free, provided that a certain order value is reached.

RECYCLED LEATHER TAG FOR DISPLAYS

Our Recycled Leather Tags for displays highlight the significant selling point of our table mats: the fact that they are produced in OEKO-TEX-certified recycled leather. When ordering a display, 10 pieces of Recycled Leather Tags are included. The tags can also be ordered separately.

These tags are made in our recycled leather in the colour Nature / NuPo, which complements our entire colour range beautifully. We encourage placing these tags on the left side of each shelf on all displays for a sleek look that catches the customer's eye.

RECYCLED LEATHER TAG FOR DISPLAYS	10 PCS
Colour	NATURE / NUPO
Measurements	H: 3,8 cm / W: 7,9 cm
Article number	221

Place one Recycled Leather Tag on the left side of each shelf

SOOTHING BEIGE

FLOOR DISPLAY WITH GLASS MAT BOX AND SIGN

This Floor Display in Soothing Beige features eight shelves, each capable of storing approximately 40 table mats. The sign creates visual appeal and can be easily replaced, while the glass mat box with eight compartments allows for the display of both glass mats, our popular cleaning products, or a combination of both. On the glass mat box is a small LIND DNA logo in recycled leather in the colour Nature / Nupo.

The display is equipped with wheels, making it easy to move around to different locations in the store. The sign is manufactured in Denmark from recycled aluminum and features an image on both sides. Please remember to order a sign for your display – see options on page 32-33.
