TEAK TRAY SQUARE EVEN MEDIUM: HERBAL DUST / NUPO

TRAY SQUARE ALU SMALL ANTHRACITE: BROWN / CLOUD, SAND / NUPO

## ALU TRAY

Our sleek Alu Tray is characterized by its aluminum, which contrasts with the insert of recycled leather, giving the tray an edge. The tray serves numerous possibilities for both serving and decoration, and the fact that it comes with a removable recycled leather insert in our more than 90 different colours and textures provides many options to find the one that best suits the place.

The elegant aluminum trays are produced in Denmark and are available in two colors: Anthracite and Bronze. The two designs come in five sizes each. They come with or without recycled leather inlays and with or without our tea & coffee inlays, which can be customized as needed, providing the opportunity to get exactly the trays desired.

## TEA & COFFEE TRAY

Our Tea & Coffee trays in aluminum differ from our Alu trays by the inlay with cut outs. The inlay is crafted from recycled leather with cut outs, ensuring stable placement of various components and a polished look for your tray. We offer various standard solutions for these Tea & Coffee Inlays, designed with space for coffee capsules, aluminum bowls, and/or woodboxes for storing essentials like tea, sugar, and snacks. Additionally, the leather inlay can be fully customized to meet your specific needs.

## TEAK TRAY

Our teak trays in recycled teak boast a timeless design, yet they bring forth a multitude of possibilities. Perfect for serving, setting the table, and styling. The elegant designs of our teak trays from recycled teak seamlessly complement various contexts and with a wide range of recycled leather inlays it can easily be matched to its surroundings or the table setting.

The collection features two elegant designs both adorned with meticulously crafted finger joints and produced according to the highest standards of craftsmanship. Teak Tray Airy presents a modern, yet lasting expression with open corners, while Teak Tray Even exudes the charm of classic, closed corners. In both designs the interplay of the small pieces of recycled teak will make the expression different from tray to tray.

TEAK TRAY SQUARE MEDIUM AIRY: HERBAL DUST / NUPO

## RECYCLED TEAK

With a captivating passion for recycled materials, we have expanded our range with products made from recycled teak. The small, thin pieces of teak wood used for our trays, are essentially waste products from the production of furniture, originating from mature trees harvested in renewed and certified plantations in Indonesia. We have invested in converting, what is essentially a waste product, into quality designs made to the highest standards.

## RECYCLED LEATHER INLAY

The Teak Trays and Alu Trays are available with recycled leather inlays in our more than 90 recycled leather colours and textures. The leather inlays not only enhance the visual appeal of the tray but also offer the opportunity to create a cohesive style by selecting colours, that harmonize with the surroundings or match the table mats. The inlay can be removed, and the trays are surface treated, so whatever you might risk spilling does not seep through and leave marks.

TEAK TRAY SQUARE M EVEN: HERBAL DUST / NUPO

## CORE LEATHER

The recycled leather, we use for our tray inlays, originates from vegetable-tanned core leather sourced from surplus production in the furniture and fashion industry — such as leftover pieces of leather from the production of a sofa or shoe soles. The fact that the leather used is vegetable-tanned means, that only plant-based liquids have been used in the tanning process, which is a more sustainable method, that also enables the recycling of the leather.

## GRANULATE

The vegetable-tanned core leather is granulated into tiny pieces, transforming it from a solid piece of leather into crumbs that feel soft and lightweight to the touch. This granulate is mixed with natural rubber from trees in a ratio of 80% core leather to 20% natural rubber, and then pressed to create recycled leather.

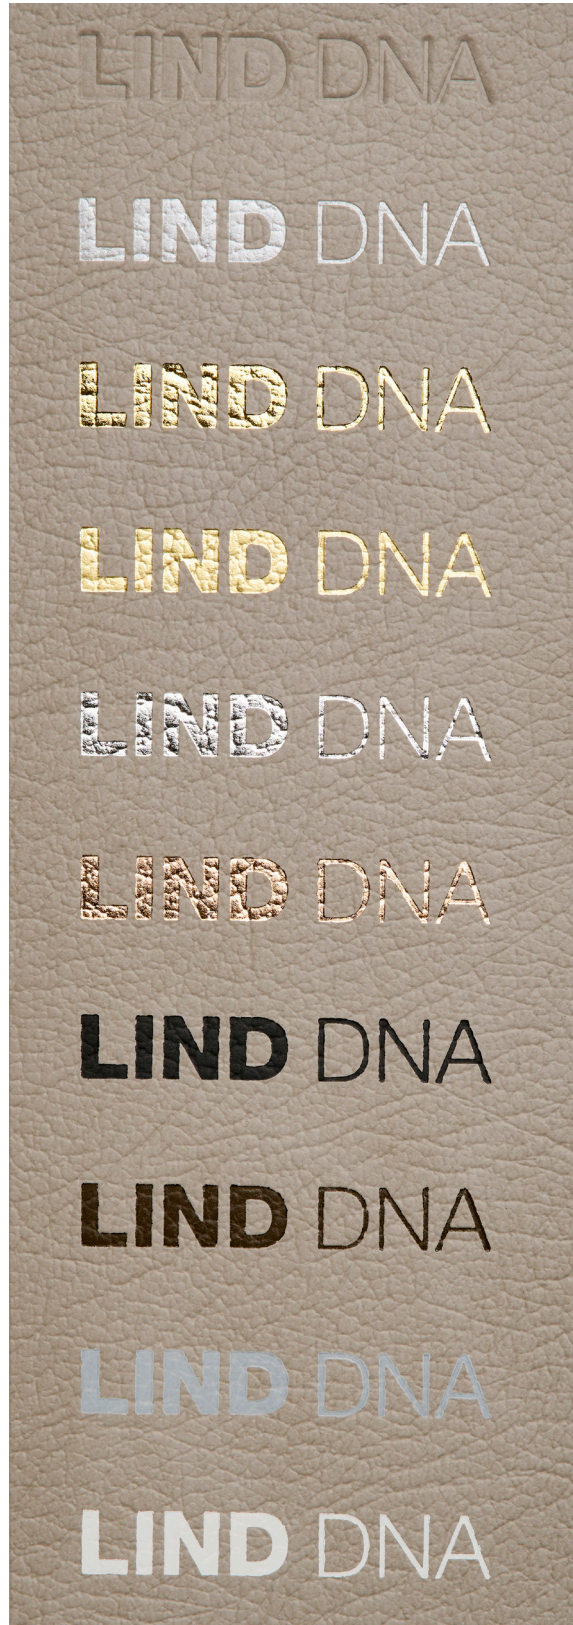

## RECYCLED LEATHER

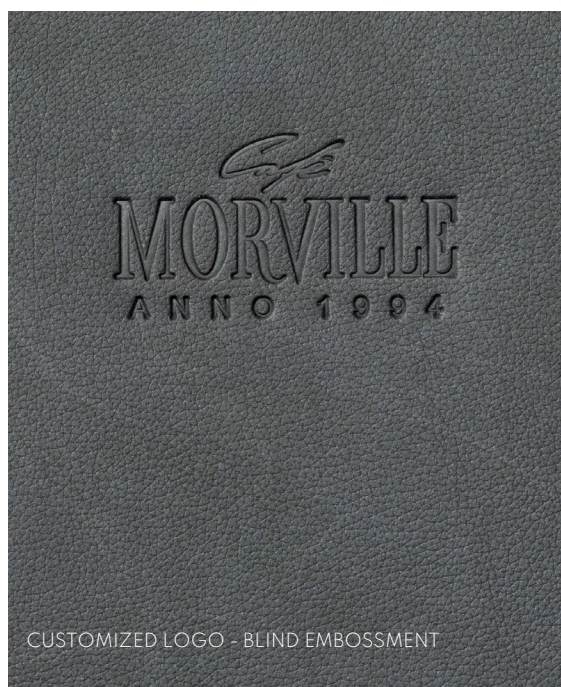

From core leather to granulate to recycled leather. This process has been carefully developed to create a unique material offering remarkable versatility, easy maintenance, and a lifetime of durability. Also, a material that, during the process, grants us the opportunity to explore boundless design possibilities in terms of colours and textures. Both water-based colours and textures are developed with a focus on creating an organic, natural expression and colour interplay, that stays true to the natural material.

## LOGO EMBOSSING

We provide logo embossing on our tray inlays tailored to our customers' needs. Our embossing options include blind embossing as well as foil embossing in various colours. By selecting the type, colour, and size of your embossments, you have the opportunity to maintain a cohesive visual identity across all aspects of your branding.

## COLOUR SELECTION NUPO

Nupo is our most popular recycled leather texture. It has a suede-like surface, with a soft, matte structure. Nupo has a Nordic, minimalistic look — the perfect choice for almost any interior style. The material is 1,6 mm thick.

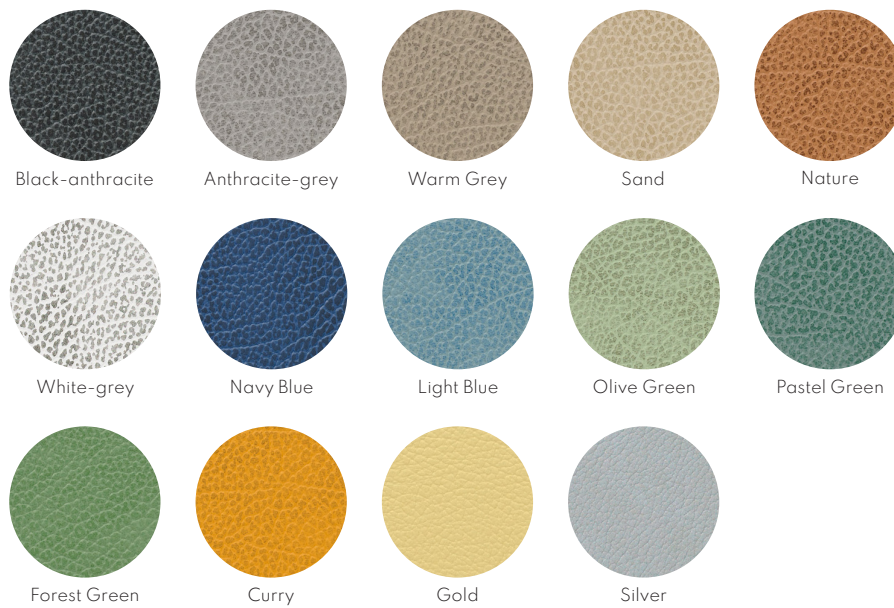

## COLOUR SELECTION SERENE

Serene is an exclusive recycled leather texture, and the authentic appeal extends to its colour selection. Serene differs from other qualities by being softer and more flexible. The material is 1,2 mm thick.

## COLOUR SELECTION HIPPO

With different depths, Hippo has a beautiful play between bright and darker shades across the surface. The coarse surface is very durable and easy to clean. The material is 1,6 mm thick.

## COLOUR SELECTION DOUBLE-SIDED

Our double-sided recycled leather features different colours on each side, and some of them various leather textures too. In total, there are 22 variants in the collection, all of which can be flipped to change the look and colour. The material is 2 mm thick.

The colour combinations are predefined.

## COLOUR SELECTION BULL

Bull is our first and one of our strongest recycled leather textures. The material is incredibly durable and easy to maintain. With a small, fibrous pattern, the surface has a classic leathery and slightly polished look. The material is 2 mm thick.
