SHARING IS CARING

A shared meal is a short moment of peace. Today's luxury is dining with friends and family – in real time. Offline. You talk, learn, share and care. Share a moment with us!

LIND DNA

SUSTAINABILITY IS RESPONSIBILITY

The bedrock of most of our designs is recycled leather, certified by OEKO-TEX®. The leather is sourced from the surplus production of vegetable-tanned leather from furniture, bags and shoes and mixed with 20% natural rubber from trees.

We're aiming to create subtle designs that involve reusing resources to decrease the total environmental impact. And we have come a long way.

From the very beginning in 2013 we have been environmentally responsible. Our materials are responsibly sourced and we continuously refine our waste management at our production facilities in Aarhus, Denmark. Our zero-waste strategy is based on a waste prevention policy, proactive reuse and optimized separate collection of waste at source to guarantee quality recycling. Our main production goal is to eliminate toxic waste that poses a threat to the environment.

TRENDS

The four trends HARMONY, CLASSIC, PLAYFUL and ENIGMATIC are directions, inspired by and developed from society's life-style related movements. The essence of these movements is translated through our many colours for table settings. The rest is up to you. Choose among all our colours and tell your own table stories. In the end, we probably contain elements from all four trends and we choose to switch between table settings according to what we feel and who we share our table with.

HARMONY

Emotional well-being is important. We find harmonious well-being in nature, and we bring nature into our home and into our table setting.

CLASSIC

Classic lifestyle is traditional and no-fuss honest. The classic table settings are minimalistic, refined and carefully thought through in functionality and comfort.

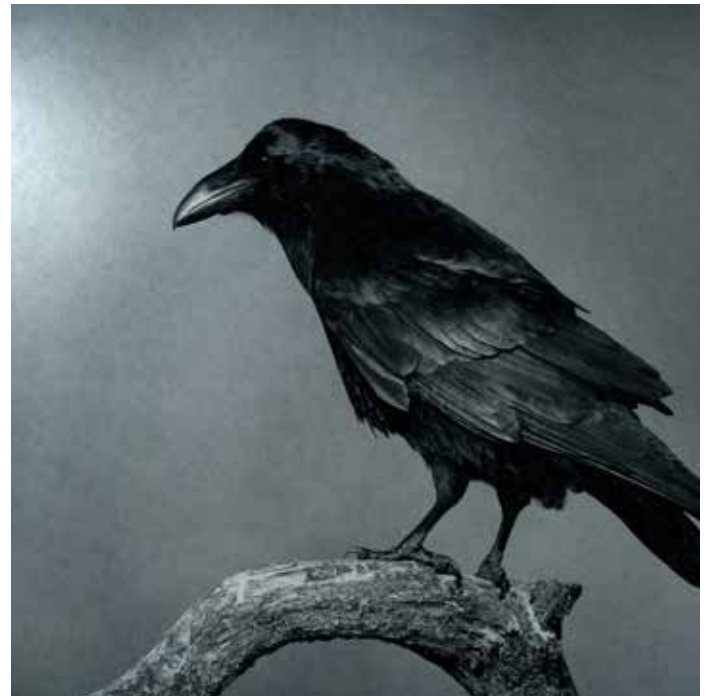

PLAYFUL

The perfect and predictable has become boring. A unique and playful table setting challenges our comfort zone with fusions between form and composition.

ENIGMATIC

In a cross-field between recognizability and mystery, we scratch the traditional surface and dive deeper into the unknown. Here is room for imaginative ideas.

TREND: HARMONY

In a time of constant change, we switch between social media and fast news, or otherwise exclude it completely. We seek harmony between being "on and off". Emotional well-being is important. We find harmonious well-being in nature and we bring nature into our homes and into our table settings. Caring for harmony among our closest ones is being present - together.

Our colour scale within HARMONY is inspired by nature's harmonious world and the diverse grey, blue, green, brown, sienna and burned curry shades reflect the very feeling of being in harmony with nature.

TREND: CLASSIC

Classics are constant and original. In a fast moving life we seek the honest and authentic, and what is more pleasant than surrounding ourselves with clean elegance and no-fuss? A classic table setting and classic interior design often confuse minimalism with a stark coldness. Think simplicity, refinement, comfort and functionality. A classic table setting is elegant and all elements are carefully thought through. A classic and timeless table setting reflects honesty and security with those we share the table with.

The colours for classic table settings are the most universally loved colours. They call for minimalistic and timeless interior designs in white, black, anthracite, grey and green with a touch of dramatical red, exclusive gold and calmful rose.

The classic table story is sophisticated, scaled-down, functional and elegant. And the colour palette is the same – it is the most timeless and universally loved colours.

Or mix with playful novelty prints and modern geometric and kaleidoscopic designs.

In fact, the playful colour scale consists of all colours. Mixing and styling is the individual part. Our playful colour scale consists of clear, happy, bright colours, but in the end it's all up to you to tell your individual, playful table story.

If we don't want to relate to the world, we create our own - as a balance to the bombardments of news and information-overload, as well as expectations of success and decision fatigue. By maintaining our authenticity, we can release energy to embrace parallel universes.

COMPOSE YOUR PERSONAL TABLE STORY

On the previous pages we have illustrated our colours for table settings through the essence of the four trend directions - HARMONY, CLASSIC, PLAYFUL and ENIGMATIC. They are all current trends, which are inspired by society's lifestyle related movements and external trend experts. Our four different trends capture the spirit of the time and result in inspiring table stories.

LIND DNA's colour palette is wide, and we aim to inspire you by dosing our colour range within our chosen trend categories. The rest is up to you! That's the fun part of it. Tell your own personal table story.
