**MEMORY** is a series of jars, inspired by the different surfaces of the earth and the stories nature can tell. The name Memory is linked to the stories of nature and the earth, and how new stories are brought to life when you see the jars in different lights. The jars are made of terracotta and are finished with a beautiful brownish shade, which gives a lively and rustic appearance. The attack and the nuances change according to the light and thus bring the little stories to life.

Memory should only be used indoor. The jars are not guaranteed waterproof. We therefore recommend that you place a waterproof bucket or use a plastic cover inside to prevent the water from the jar. Memory are perfect for dried decorations or flowers. You can put dried sand in the bottom of the jar to make it stand more secure. In the Memory collection you will find jars in the heights 28 and 30 cm.
